LEVELING OFF.

There are indications that the
high price era that follows every
war (or always has) is about to
come to an end. This does not
necessarily mean that there is
going to be a bust that will lead
to depression. It may merely
mean that production is catching
up with demand.

OXBOW DAM BILL

Of the issues before the voters
November 2 perhaps none is
more complicated, nor more
wrapped with emotion and prej-
udice than the one having to do
with the proposed Oxbow dam.

In Other Days

From the Observer Oct. 8, 1909
Mrs E. W. Ehret and Miss Liz-
zie Kruger, who have been visit-
ing their sister, Mrs L. J. Pape
at Monkland, left Wednesday for
their home at Redmond.

Wasco Janitor Hurt
In Fall From
Neighbor's Roof

GUY CORDON

Tom Jacobsen, janitor at the
Wasco school, suffered a fractured
elbow and heel Saturday when he
fell from Grant Armsworth's roof,
where he was doing some repair
work. Mr. Jacobsen was taken to
The Dalles hospital by the
Sherman county ambulance.

RAIN

It really seems an appropriate
time for some one to say some-
thing in praise of rain. Not per-
haps just any old rain but rain
that comes so quietly and with
such timeliness is worthy of
praise.

The two inches of rain that has
blessed Sherman county this fall
came just when farmers were
ready for it. The crops were put
away, whatever straw was need-
ed was put up, the fairs had been
enjoyed and then it rained. Not
punny little dribs that are a tor-
ment to a farmer wanting to seed,

And rain has had much to do
with present prosperity in this
part of the wheat country, too.
Although the rainfall for the
past ten years has not been much
greater than for the previous
ten year period it has been
enough to make a vast difference
in the wheat crops. The 40 bu-
shel yields make prosperity. Al-
though the price has been good
enough to make wheat to obtain
any price.

There are those who have been
looking for a drought period to
compensate for the seven good
years, a drought period to com-
pensate with the thirties when no
one could grow much grain. The
seven year cycle idea probably
stems from reading the Bible and
the troubles of the Egyptians
with the Hebrews. There is no as-
surance that weather changes
will be on that basis these times.
