

### Mrs. VanGilder Better

Mrs Marjorie VanGilder is reported by her mother, Mrs Sadie Rich, to be improving slowly in Providence hospital in Portland. Sunday night she was very ill with pneumonia which has been halted. Her jaw has not been set as yet and she is still very ill.

Report Thursday morning is that Mrs Van Gilder has greatly improved as her lung condition has cleared very well and it is expected that her jaw can be set soon.

Mr and Mrs Howard Conlee returned home Tuesday evening from a trip to Eugene where they visited Mrs Conlee's father and Howard spent a day or two deer hunting.

Jack Noonan and Jack Rothery of Wasco were in the Summit Prairie and Paulina country the first of this week after deer but got none, although seeing plenty of does.

Mrs Art Loos of Hood River accompanied her husband to Moro Tuesday when he came up to see how his rock crusher was running.

Two former Sherman county boys, John Searcy and Harry Ragsdale now grown into a banker (John) at Hillsboro and a bond dealer (Harry) in Portland were here Tuesday while looking over the land they own in Sherman county.

Students of Moro High school published the first issue of their school paper, The Optimist, last week end. Priscilla Melzer is editor and the staff includes a large number who contribute in some way to the success of the monthly sheet.

John Parker drove to Portland Tuesday going by way of Wapinitia and he reports that just west of Shearer's bridge he saw a group of deer, five bucks and six does.

In this growing region...  
**Every Kilowatt Counts**  
Thrifty use of your electric refrigerator will save you money on food and upkeep. You'll be helping to save electricity, too. That's important, for every kilowatt is needed to supply the demand for electricity in this fast-growing Pacific Northwest. Peak power needs of the region have increased by more than one million kilowatts since the end of the war. Every bit of electricity has a big job to do. So save food and reduce wear and tear on your refrigerator by following the tips listed below. You'll also be saving much-needed electricity for this fast-growing Pacific Northwest.

**HOW TO SAVE...**  
DEFROST  
Defrost regularly. Icing of coils actually insulates them, and makes your refrigerator work hard to keep foods at proper temperatures.  
Let foods cool before placing them in the refrigerator. Some foods shouldn't be cooled too fast. Any hot dish makes your refrigerator work overtime needlessly.
