ALL DOLLED UP . . . In 10 years or so nine-month-old Jesse Rotman of Chicago might not like to be reminded of the fact that he once looked precious enough to have a doll modeled after him, but he's enjoying it now. A toy company official was so smitten with Jesse's doll-like appearance that he had a life-size replica of him made. Soon thousands of children will be playing with Jesse's in-anian...te counterparts.

Co., repairs, \$21.34; O'Meara Supply & Imp. Co., repairs, \$12.28; J. K. McKean Co., repairs \$32.20; Mac's Welding Shop, repairs, \$17.75; C. H. SERVICE MEN MUST APPLY NOW

Ex-servicemen or their survivors who must submit evidence of birth, marriage, divorce or death to obtain veterans' benefits should seek help from authorized veterans' representatives, who can obtain vital statistics in this state without cost, the Oregon Department of Veterans' Affairs advised today.

This reminder, the state veterans' agency said, is especially important now to veterans 60 percent or more disabled, who have until December 1 to submit certain vital statistics to the Veterans Administration to secure retroactive compensation benefits under recently enacted Public

Law 877.

This act provides additional compensation for seriously disabled veterans with dependents, if their disabilities are service-connected. Proof of dependency must be in the VA's files by December 1 to make these benefits payable back to September 1, effective date of the act.

MOTOROLA and PHILCO

auto radios for immediate delivery, for all makes and models of cars, come in and see about having one installed. Prices from \$46.00 up to \$105.00.

In this growing region...

Every Kilowatt Counts

Be thrifty in using electricity for lighting your home and running your radio. Your thrift will save you money. You'll be helping to save electricity, too. That's important, because every kilowatt is needed in this fast-growing area. Peak power needs in the Pacific Northwest have increased more than 57% in only four years. So use your radio and lights carefully. Follow the tips listed below. You'll be saving electricity vitally needed in this fast-growing region.

How to save...

Don't leave lights burning unnecessarily. Use only lamps required for good lighting and safety.

Turn off the radio when you leave it. It's a small item, but every kilowatt counts.

ALWAYS IN GOOD TASTE
