

Moro Library Books Sorted

Miss Mary Frances Gilbert of The Dalles library was here Tuesday to assist local women in sorting the library books preparatory to opening the city library again under sponsorship of the Moro Woman's club. The books are now in the council chambers where they will remain. Days will be Wednesday and Saturday and special effort will be made to pur-

chase some new books for children to be distributed during the summer. Bob Roberson writes that he landed in Marburg, Germany, several weeks ago and has now been transferred to Vienna, Austria. He saw some of the damaged cities of Germany and thinks they are pretty well destroyed.

A fitting and showing exhibition will be given at the Harold Eakin ranch next Saturday with Scott Fritts giving the demonstration. 4-H club members will find the show valuable and elders will be interested in the Eakin cattle.

The city of Moro has spread 400 yards of gravel on dirt streets in the past few days and has bought and partially spread rock for the streets that are to be oiled as soon as someone can be found equipped to do the work. Some grading has also been done.

So they shall know good music of all nations

Casey Jones, Paul Bunyan, Pecos Bill, Johnny Appleseed... all the legendary heroes of America are this year coming to life for children in 2,663 schools through the music of the Standard School Broadcast.

Each week, this program plays and explains good music for an estimated 400,000 classroom listeners. Title of the current course is "American Music and Folklore"... but over the years, music of all nations has been studied and enjoyed. Manuals and other materials are supplied for the use of teachers.

This is the twenty-first year of Standard School Broadcasts. It is our sincere hope that we have helped children in the West know and appreciate the music of the world and understand better its people.

From where I sit... by Joe Marsh

How We Licked The Parking Problem

For a while it looked like we'd have to put up parking meters. Folks working in town—including some of the store owners—were taking up all of the space along Main Street.

Farmers coming in to shop never found a place to park, and sometimes had to lug stuff a half mile or so. Some started to do their buying in other towns. Finally, store owners and farmers had a get-together—with the result that the empty field near the depot was fixed up for all-day parkers.

Now farmers get their shopping done comfortably, and the merchants have a better place to park than they had before. Just look a little friendly co-operation to make everybody happy.

From where I sit, most differences can be ironed out by just talking things over—maybe with a cup of coffee or glass of beer—and seeing the other person's side of it. Next time you have a problem or a little difference to settle, why not try just that?
