Wonderful New Comfort

The Beautiful Chrysler | Silver Anniversary Model

New Yorker 4-door sedan with PRESTOMATIC FLUID DRIVE TRANSMISSION - drive without shifting

New Smoother Driving! Chrysler's mighty Spitfire engine now has still higher compression for faster acceleration, smoother response. And along with its better all-around performance goes an amazing new Waterproof Ignition System that's exclusive with Chrysler. You can drive through high water but it won't stall. You get quicker starting, even in damp weather, smoother idling, longer life.

New Wider Chair-Height Seats! We don't fold you up like a "jackknife." You sit comfortably in seats the height of your easy chairs at home. We've more headroom, legroom, and shoulder room for you. And no other car has ever been so completely engineered from the fundamentals up for your comfort, your convenience, your peace of mind.

New Easier Steering! In one of the great advances since the war, we give you new "center control" steering. For the first time, the rods of equal length give you balanced control. There's no wheel light. There's greater road stability, easier handling, less road shock. Yes, and greater safety, too—for everything about this car is designed for safer driving.

Next Sunday is a big day for Jeanne Determann

Sunday evening, a little after 8:30 o'clock, the announcer on the Standard Hour will say... "Now, a young artist we believe has a great future in music will entertain you—Jeanne Determann, soprano from Los Angeles."

And Jeanne, who works as a secretary, will sing for the first time with a great symphony orchestra... for an audience of nearly a million people.

We don't know what this chance will mean to Jeanne, but similar Sunday evenings have been very important in the careers of many singers and musicians—Clara Mae Turner, contralto, and Jerome Hines, basso, both with the Metropolitan Opera Company, Dorothy Warenskjold, soprano with the San Francisco Opera Association, Paulena Carter, concert pianist, and others.

For it is our policy on the oldest of all symphony network broadcasts to help talented young people whenever possible... so that, from time to time, the hour that's yours can also be theirs.
