

**She'll Rule Pendleton Round-Up**

Pendleton, July 25—From gaited, high stepping saddlebreds, to rangy cowhosses, Queen Joan the First, monarch of the 1949 Pendleton Round-Up, Aug. 24, 25, 26, 27, rides and loves 'em all.

Blonde, brown-eyed Queen Joan, daughter of Mr. and Mrs. Harold Barnett, has ridden since she was able to walk, first straddling a horse on her parents' ranch. The queen, who has won yards of blue ribbons and scores of trophies in horse shows, will ride, at the Round-Up, her very favorite, the famous "Mr. Kelly," a sorrel which she herself helped to break.

Joan's winnings in the ring have been at shows in Spokane, Lewiston, Baker, Pendleton Mustang Spring Show, Union, Hermiton and so on.

While first requisite of a Round-Up queen is that she be a

...rider, good looks are a help and Joan has these, but plenty, as well as a charming personality. Her accomplishments are not only in riding; she was on the high school tennis team for three years; is an excellent skier, swimmer and dancer. In 1948 she won the Blue Mountain Ski championship for Oregon and Washington girls. She was on the staff of the Lantern, high school paper, and active in dramatics and school clubs.

Last year at Oregon Delta college, where she is a Delta Gamma, her grades were above a 3.00 point and she was chosen Ag Week-end Queen, ruling the O. S. C. Jamboree Rodeo and Stock Show, an honor seldom accorded a freshman.

Queen and her four princesses will ride in all Round-Up parades.

**Foss Family Assists Matrimonial Plans Of Watkins-Wilson**

Mr. and Mrs. John Foss returned early Saturday morning after serving as witnesses Friday evening, August 19th in Walla Walla, Washington to the wedding of Arthur S. Watkins and Doris Wilson.

Dr. Leah Richelderfer and daughter, Mrs. Robert Bish, entertained for the former's sister, Mrs. Hamilton from North Carolina last week.

Mr. and Mrs. T. L. Field, Mr. and Mrs. Leonard Fields and Mr. and Mrs. Basil Bains invaded the luscious huckleberry patch last week, and report lots of berries.

Mr. and Mrs. T. L. Fields are seriously contemplating a new residence at Rufus.

Richie Dingle suffered a stroke and is now somewhat improved in the Dalles hospital.

Mrs. Ben Klinworth and son Jimmy who were visiting her parents, Mr. and Mrs. A. T. Striker, has returned to her home at Connell, Washington.

Arthur Dowsett of Gresham, husband of Mrs. Amy Dowsett, who were married last December 28th in Washington, passed away August 18th and was buried August 22. F. Claude Stephens who officiated at their marriage was called to be with his sorrowing sister, Mr. Dowsett was a member of the Gresham Methodist church and of the Masonic lodge A. F. and A. M.

Topic at the Church of Christ Sunday will be "Words of Life".

At low temperatures—below 50 degrees—paint does not flow easily.

The important rules for painting are summed up by Campbell as follows:

"Have all surfaces whistle clean, bone dry, smooth but not glossy. Apply a good quality paint, thinned to the proper consistency and brushed out smoothly. Read the directions on the label and follow them carefully. Allow plenty of time for each coat to dry and apply the right number of coats. Usually several thin coats are better than one thick one."

Repaint old structures before the wood has begun to rot and nails have begun to rust, the housing specialist advises. Rotting and rusting will continue,

he explains, after the paint has been applied. The longer painting is delayed the more difficult and expensive it becomes because of the extra time required in preparing the surface. Principal causes of paint failures are neglect in properly preparing the surface, painting in damp or otherwise unfavorable weather, and using inferior paints.

Regardless of generally higher cost, quality paints are the best "bargains", Campbell believes. He adds that most ready mixed paints contain a white lead or white lead and zinc oxide pigment. Good paint is mixed with pure raw linseed oil, with 5 to 10 percent Japan drier. The addition of gloss oil, resin oil, fish oil and mineral oil

makes inferior paint. Under surfaces must be clean loose dirt, soot or loose paint when repainting. Campbell without future difficulty, he stresses. Paint will not cover concluded.

Drive through high water... Start instantly in dampest weather!  
You can't stall this amazing Chrysler High Compression Spitfire Engine even if you play a hose on it!

Latest and greatest development in high compression! Pioneered by Chrysler engineers who first introduced high compression to America 25 years ago! Featuring still higher compression Chrysler's mighty Spitfire again steps years ahead. Now you get completely waterproofed ignition system, coil, distributor, wiring-harness, Spark Plugs—everything! And again our developments in engine protection keep pace with our advances in performance! Full Pressure Lubrication prolongs engine life. Exclusive Full Flow Oil Filter keeps oil so clean that a change is necessary only every 5,000 miles. Chemically treated cylinders reduce cylinder wall scoring, save on oil. New Wide-Gap Resistor Spark Plugs cut misfiring, conserve fuel. Superfinish reduces wear of moving parts. And these are only a few of the Chrysler engineering "firsts" the others can't match. Phone us today for a demonstration.

When you call the family taxi, need a telephone for any reason, have you noticed one always seems handy?

**"Come get us, daddy, the movie's over"**

1. It doesn't just happen there's a public telephone not far away when you look for it. Locations have been carefully selected to make sure service is where it's needed most... in theatres, filling stations, drug stores, terminals. And special installations are often made to meet the needs of crowds—at conventions, fairs and the like. Today there are some 85,000 public telephones at work in the West.

2. More errands run, more jobs done, more time saved for you... telephone service has many duties. And public telephones make service still more valuable by putting all telephones, both residence and business, within convenient reach... no matter where you may be. More and more are going in, too... as we keep pushing our job of furnishing good, well-rounded telephone service to the West.

3. Good service for you comes from the big job of handling millions of calls every day. But the extras mean a lot, too—like putting telephone booths in handy places. They add up to keep your service one of today's best buys.

Your telephone is one of today's biggest bargains
