PAT O'NEIL President, Dayton, Washington, Chamber of Commerce

15,500,000 WORTH of new electrical equipment items have gone into service on the PP&L system in the past 12 months. The line trucks are rolling out every day with loads of wire, insulators, pole hardware, service transformers, and all the other items needed to help meet growing demands for low-cost electricity.

Since V-J Day, Pacific Power & Light has spent more than \$25,000,000 on new construction. These are development dollars—tax-paying, job-making dollars—invested here in the great Northwest to help meet your electrical needs.

The power requirements of a fast-growing region demand a steady flow of these development dollars into the Pacific Northwest. That is why all of us want investors to look on this region as a land of opportunity, and of fair reward.

The investor whose dollars help extend and improve your low-cost electric service, while sharing your tax burden, is truly a Partner in Progress!
