Reapportionment Plan For State Finds Favor

The Non-partisan Committee For Balanced Reapportionment, planned a whirlwind campaign to put the Balanced Reapportionment Plan on the ballot at the November general election, at a Salem meeting this week.

Committee members representing both political parties and the major farm and business organizations are working to set up petition committees in every county of the state of Oregon.

Seven thousand five hundred petition signatures have been pledged to put the Balanced Reapportionment Plan for re-apportionment of the Oregon Legislature on the ballot at the November election. It was announced this week.

Speaking for the Nonpartisan Committee for Balanced Apportionment, Marshall Sweetington of Salem, said, "County committees have been organized in Baker, Union, Wallowa, Malheur, and Hood River counties. The committees are actively working on petitions and have pledged a total of 7500 signatures. The Balanced Plan is being well received in all sections of the state. People are beginning to realize the threat to Oregon voting power in the so called Population Plan."

"The state committee will continue its efforts and we expect

to have county committees in operation in every county of the state by the end of May. We have received support from members of both political parties and all the major farm and business organizations. It is a big job to get almost 30,000 signatures, but we are confident the job can be done." Sweetington said.
