

Moro Personals

Mrs. Leonard Kirby and small daughter came home this week from the hospital. The child, Diane Lee, was born August 4 in a hospital in The Dalles and is the first grand child for Mr. and Mrs. Lawrence Kirby of Moro.

Mr. and Mrs. Marius Douma and children were here for a few days to look after their house now occupied by Mr. and Mrs. Archie McCrae.

Mr. and Mrs. John Parker left Sunday for a vacation trip which they expect to take them as far east as Yellowstone park. Mrs. Mollie McLachlan is tending the Ranch & Home Store in their absence.

Sheriff Fields came home Monday from Detroit where he had gone to get a new car. Howard Pratt of Wasco flew back at the same time and drove out another car.

Mr. and Mrs. Roy Powell of The Dalles were up Tuesday to visit relatives in the county.

Mr. and Mrs. Karl Eaton of

Pendleton stopped in Moro last Friday with Mrs. E. B. Casteel, county clerk of Umatilla county, who is also a former resident of Sherman county.

John M. DeMoss writes from their summer home at Hagsville, Washington that he and Mrs. DeMoss are having a wonderful summer on the sound, also enjoy-

CARD OF THANKS

We wish to thank everyone that has been so nice to Noel during his first days of "semi-confinement." Your friendly concern has been deeply appreciated. Keith, Orville & Cecil Hockman

Best way to spruce up a telephone is with a soft, dry cloth...never with water, or any other liquid.

HOW TO TREAT YOUR TELEPHONE

Suggestions to help protect your service

1. A twisted cord can lead to trouble. Although the wires are especially designed for flexibility, too many twists and kinks may eventually break them and interfere with service until a repairman can call. Good idea to get the curls out by letting the receiver dangle and unwind by itself. . . . then keep them out by remembering, each time you call, not to put turns in the cord as you handle the receiver.

2. It's built to take it . . . but your telephone can develop ailments if it's dropped. So make sure the stand it sits on is solid and is in a spot where it won't be accidentally bumped. Other ways to help protect service: Avoid "gadget" attachments for your telephone . . . keep cords clear of doorways where they may be pinched . . . and always keep water away from wires and fittings.

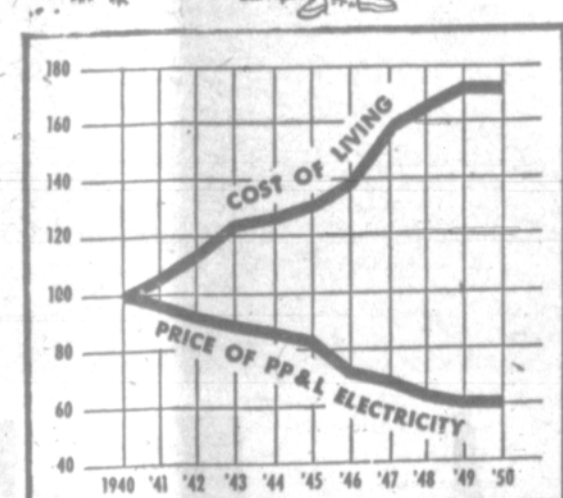

3. Did you ever stop to think that your telephone is one service or piece of equipment in your home that's repaired and maintained for life at no extra cost to you? It's one of the values included in the rates you pay for service . . . rates that make your service a real bargain today. For the telephone takes an even smaller part of the family budget than it did ten years ago. On the average, rates have gone up less than half as much as the cost of living generally.

Your telephone is one of today's best bargains

Dear Reddy

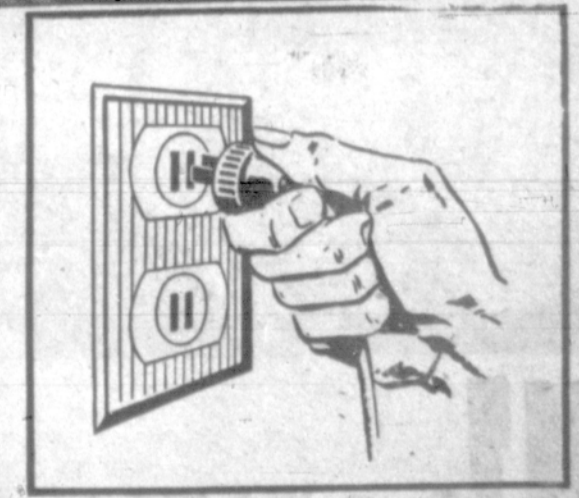

Having a fine time—except for the hard work! How I miss my Electric kitchen and laundry. I never realized before how much work you do for a few cents a day

THE COST OF LIVING is up 68% since 1940. But PP&L's average price for household electricity is down 40%!

RATE CUTS SINCE 1940 have meant total net savings of nearly 18 million dollars to users of PP&L's electricity!

TODAY'S BIGGEST BARGAIN! Residential electric rates here are less than half of the national average.
