LEGAL NOTICE

NOTICE IN THE MATTER OF VACATING A CERTAIN ALLEY IN THE CITY OF WASCO, OREGON

The undersigned give notice that at a regular meeting of the City Council of the City of Wasco, Oregon, to be held on 19th day of March, 1951, at 8:00 P. M. in the City Council Room in Wasco, Oregon, they will present to said City Council for consideration a petition praying for the vacation of a certain alley, described as follows:

All the alley in Block Nine of McPherson's Second Addition to the City of Wasco, Oregon.

DOGMA STIRS CONTROVERSY . . . This famous painting by Titiano depicts the ascension of the blessed Virgin Mary into heaven. Pope Plus announced recently that the dogma that the Virgin Mary is in heaven both body and soul, a traditional Catholic belief, will be proclaimed on November 1. The Church of England announced that it does not and cannot hold this doctrine to be a necessary part of the Catholic church.

Dated this 9th day of February, 1951.

POLICYHOLDERS' DIVIDENDS AGAIN INCREASED BY SUN LIFE OF CANADA

ANOTHER RECORD YEAR FOR LEADING INTERNATIONAL LIFE COMPANY

Four hundred and forty-one million dollars of new life insurance was issued by the Sun Life Assurance Company of Canada in 1950, the largest amount written by any Canadian life company during the year, and over \$68 million (18.4%) more than the total for the preceding year. The volume of new insurance written during 1950 was greater than any of recent years and represents the substantial total of \$1,736,000 for each working day. Geo. W. Bourke, President of the Sun Life, in releasing the 80th Annual Report announced a further increase in policyholders' dividends effective April 1, 1951, bringing the total amount payable this year to more than \$18 million.

Benefits at New High

The report reveals the strong position of the Company and the continuing expansion of its business and services. Total Sun Life insurance in force now amounts to \$4,462,000,000, or \$275 million (6.6%) more than a year ago. Group business now in force is \$1,085,000,000, an increase of 13.8%. Over \$98 million of new Group business was written in 1950 compared with \$62 million in 1949. Payments to Sun Life policyholders in 1950 amounted to \$121,476,000, a new high, bringing to \$2,361,860,000 total benefits paid since the Company's first policy was issued in 1871.

Distribution of Business

The international character of the Company's business is illustrated by the amount of insurance and annuities in force in the various countries where the Sun Life operates: United States 38%; Canada 41%; Great Britain 12%; other coun-

tries 9%. More than 47% of the total assets of the Company are invested in the United States. The rate of interest earned on Sun Life assets in 1950 was 3.61% as against 3.48% in 1949 and 3.30% in 1948.

Mr. Bourke, in his review of the year, discussed the value of life insurance in the fight against inflation, and pointed out that life insurance premiums, while serving to provide protection for individuals and families, also add to savings which, in turn, benefit the nation as a whole through investments for essential purposes. The business of life insurance reflects the voluntary co-operation of the millions of men and women whose confidence and faith enjoys. In return, the companies have established traditions of service and integrity which are outstanding in the annals of human endeavour.

Steps Against Inflation

Mr. Bourke offered five suggestions as important counter-moves against inflation: (1) Purchase only what is necessary; (2) Increase productivity by greater efficiency and maximum effort; (3) Finance defense and other necessary national expenditures on the pay-as-you-go principle; (4) Avoid wasteful government expenditures and duplication of service; (5) Increase personal savings.

I'd Like to Know . . .

You may have heard that a suit has been filed by the Antitrust Division in Washington to break up Standard of California as well as six other West Coast oil companies. Many people have written us protesting this action, have asked pertinent questions. We believe these questions should be answered for everyone. We take this way of doing so. If you have a question, write: "I'D LIKE TO KNOW" 225 Bush Street, San Francisco 20

"Would breaking up big oil companies affect national defense?"

Mrs. Marie-Louise Auer, Pasadena housewife, writes: It seems to me like a bad time to be tampering with our industries, as the antitrust lawyers want to do. Or does it matter? Would breaking up big oil companies affect national defense?

Here at Standard, one of the seven Western oil companies under attack, we see clear public benefit in having big companies in the business at all times. We believe we serve you well. But let's consider now just "bigness" and defense:

Today, military needs come first. Just recently, need for aviation gasoline jumped 275% in the West alone. Big oil companies supplied it.

Next: industry's demands. You know how industrial output keyed U.S. strength in World War II. It takes big companies to meet big needs.

Company bigness also means big-scale research, improved products. Example: oils developed by Standard which tripled range of U.S. subs.

For hard jobs, the U.S. uses our bigness and integration. Today, our U.S. projects include atomic research and a synthetic rubber plant.

Our taxes also aid defense. As one big company, we paid over \$95,000,000 last year, more than we would pay as several smaller companies.

Meanwhile, bigness and integration enable us to keep on supplying products you need. Isn't this what you want from your oil company?
