How To Stop Fuel Spillage With Funnel

Made From Can. A farmer friend who fills his tractor by bucket with Standard Diesel Fuel showed us the funnel drawn in the diagram. It was soldered together from a 5-gallon can. Slanting baffles stop fuel from slopping over the sides.

You'll keep your engine cleaner, too, with clean-burning, clean-delivered Standard Diesel Fuel. Cold Weather Tip. Standard Diesel Fuel is "Climate Tailored" - with pour point and volatility to meet cold-weather requirements in different areas. Assures free flowing, smooth running, fast pick-up, full power and easy idling. Ask us about it today.
