Hydraguide Power Steering!

Chrysler this year introduces the first power steering ever offered on an American passenger car. Many owners tell us it is the greatest advance in car driving since the self-starter! To a person who hasn't tried it, it is actually impossible to describe what a difference it makes. Driving becomes a new and wonderful experience. At your touch on the wheel, hydraulic power instantly provides four-fifths of the energy needed to steer the car. Gone is all sense of tug, strain, tension. In its place you find a wonderful sense of absolute front wheel control with almost no effort on your part. Hydraguide is regular equipment on Crown Imperials, optional at extra cost on other 8-cylinder models. Whatever car you're driving now, we invite you to...

Come TRY Chrysler Hydraguide...
First power steering ever offered on an American passenger car!

Come TRY Chrysler FirePower...
180 Horsepower, finest and most powerful passenger car engine on America's highways today!

Come TRY Chrysler Power Braking...
Power from the engine helps apply the brakes...cuts foot pressure required as much as two-thirds!

NEW EASE! No more whirling or twisting, tugging and straining. The littlest lady you know can actually park the biggest Chrysler with her thumb and one finger on the wheel...drive all day with new freedom from arm-and-shoulder fatigue!

NEW CONTROL! Hydraguide gives your hands on the wheel a new feeling of complete command at any speed. In city traffic...on awkward driveways...in snug-fitting garage entrances...you never felt such steering control in any car before!

NEW SAFETY! Even off the road onto a soft shoulder, Hydraguide helps keep your car steady and true with almost no effort...takes the jolt and strain out of driving in ruts, snow, or sand...makes steering many times safer than ever before!
