This pickup pinches pennies!

There are two simple reasons why you save money when you buy an International pickup truck.

First, you get lower operating and maintenance costs. You get a pickup truck that is engineered throughout to do more work for less money.

Second, you get longer truck life. Even the smallest International pickup truck has the traditional stamina that has kept Internationals first in heavy-duty truck sales for 19 straight years.

You get these all-truck savings right

along with features that no other pickup truck gives you. For example—the COMPO-VISION CAB is "the roomiest, most comfortable cab on the road." The Silver Diamond engine is an outstanding development of the world's largest exclusive truck engine plant. Super-steering gives you maneuverability and ease of handling that make driving a pleasure.

But get all the facts for yourself. Come in and learn why International pickup trucks are the best truck value in pickups today.
