CHRYSLER SARATOGA 6-PASSENGER SEDAN

ITS NEW KIND OF HORSEPOWER IS SOMETHING TO FEEL!

With its 180 HP V-8 engine, on 125 1/2 inches of wheelbase, many people think the Saratoga is the best Chrysler car of all.

We invite you to take the wheel and feel what happens! There's a new sense of easy power, of reserve power that make driving a new experience.

Its revolutionary combustion chamber develops more of the power in each charge of fuel than other engines can do. One result is performance, even on non-pre-

mium fuel, such as you have never felt. Another result is new economy. It's an engine that scarcely forms carbon at all. It creates less heat. It will last much longer, stay younger on the way!

And with Chrysler full-time Power Steering*, you steer with one-fifth the usual effort... drive with five times the usual control! With Power Brakes you need up to two-thirds less foot pressure... and still stop in many feet less than other cars can do.

Yes, behind Chrysler's new engine you'll find a new kind of car. Won't you come in and feel what we mean?

*NOTE: Power Steering standard on Crown Imperial. Available, extra, on any new Chrysler.
