Rufus News

(By Mrs. George L. Fox)

A telegram was received by Bill Myers of the death May 28 of his father, Lincoln Myers, who has been working about three months in Okinawa. He was accidentally electrocuted. Mr. Myers who is 67 had been a resident of Sherman county for a good many years. He was born June 30, 1884, in Iowa.

Survivors besides his son Bill in Rufus are Sergeant Ray E. Myers of Spokane and Lloyd A. Myers of the U. S. navy; four daughters Mrs. Evelyn Harrison of Wichita, Kansas, Mrs. Betha Vieg and Mrs. Ruth Coleman both of Umatilla and Mrs. Betty Wade of Palm City California; a brother Frank Myers in Iowa and daughter of Portland. The and nine grandchildren. The body will be returned here for burial.

Arrangements are under the direction of Smith Callaway chapel.

A black sheep, a white ewe with two lambs seem to be running at large around here. They were first seen in Gilliam county along the John Day river about five miles from the mouth. The river is running a lot of water at present, although it has gone down about two feet the last couple of days. It is presumed the coyotes must have gotten after the sheep Friday night because they were seen in the northern part of Sherman county on the river Saturday morning. The sheep are sheared and branded.

Mrs. Carl Casey and daughters of Dufur spent Friday visiting her parents Mr. and Mrs. George Blackburne. Also visiting there were Mr. and Mrs. Don Robison and daughter of Portland. The Robisons have been visiting his parents at Maryhill, Wn.

What makes Olympia so refreshing?

It is recognized by master brewers that a most important factor in making good beer is the natural brewing properties in the water.

"It's the Water" from our subterranean wells, plus premium quality grains and hops and the skill of Olympia's master brewers that gives such rare flavor to OLYMPIA.

Picture of a Pair who just waked up

HERE in the driveway is a Buick. It has just arrived. It belongs to this proud young couple. They've just "arrived" too.

They've arrived at a discovery—the discovery that owning a Buick instead of a "low-priced car" isn't so much a matter of money.

It's a matter of knowing the facts of life. Buick prices are closer to the prices of smaller, less powerful, less distinguished cars than most people think.

Why don't you check into this?

You'll find you could pay \$300 to \$400 more—and still not match the horsepower of this nimble beauty.

You could pay hundreds of dollars more—and still not get any more interior room, or richer fabrics.

But that's only part of the story.

The big thing about any car is the way it goes. So you ought to find out how this car rides the road—the freedom from bobble and sway that cost a million real dollars to develop.

You ought to sample the way Dynaflo Drive*

feeds the power—with a steady swoop and unbroken smoothness in city traffic, on hills, or out on the open road.

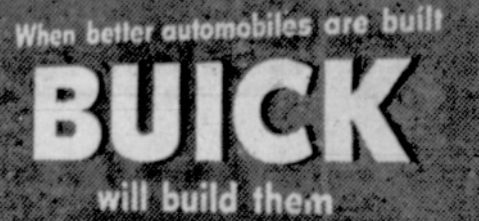

And you ought to know how it feels to touch off that Fireball 8 Engine. With all its might, this high-compression valve-in-head gets a lot of miles from a gallon of gas.

We'll tell you this—because a lot of folks have told us this: No matter what car you're driving now—no matter what cars you've looked at—they'll never seem the same after you try this one.

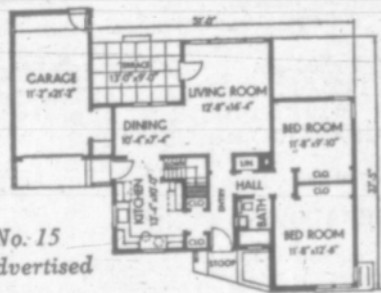

Just give us a chance to prove it—and you'll have a lot of fun.

Equipment, accessories, trim and models are subject to change without notice. *Standard on Roadmaster, optional at extra cost on other Series.
