Beefo's Beefo's

The other night a guy looks at a steak our goodlooking waitress had brought him and he said, "That's the biggest piece of beef I've ever seen that couldn't walk"

**WHEN YOU TRY POWER STEERING...
HERE'S WHERE TO COME FIRST!**

You've heard about it and read about it. Now, if you haven't felt what Power Steering does for you, we invite you to try it first in a Chrysler New Yorker . . . where you will find full-time (not partial) Power Steering!

What happens is this . . .

You handle the steering wheel in normal fashion. But 4/5 of all the work is done for you by hydraulic power, constantly at your command. Also, you turn the wheel 1/3 less distance now for every maneuver . . . the feeling you get of utter control is as wonderful as it is new.

Even at a standstill you can turn the wheel easily. Now, parking is short of its troubles (and fatigue!) . . . and you can negotiate traffic, awkward drives, and garage doors precisely and with ease.

You can double the longest day's drive you've ever known . . . end up free from arm and shoulder strain. Rough roads, soft shoulders, snow, mud? . . . the power that helps you steer now prevents the car's wheels from "steering back" at you. The course you set is held, at any speed, till you want it changed. Yet, with this 5-times greater control, "wheel feel" is always the same.

Why not come try it? Learn for yourself why growing thousands of motorists say they'll never be without Full-time Power Steering from now on. Drive a Chrysler . . . and Learn the Difference!
