Carl von Borstel, Mrs. Kenneth Hattrup, John Scott, Peter MacGillivray and Mr. and Mrs. George Basch drove to Timberline lodge on Mt. Hood Sunday and spent the day. Some of them rode the ski lift.

Mrs. Louise Jones returned Tuesday from Jennings Lodge where she spent several weeks. Mr. and Mrs. Dell Olds were in The Dalles Friday on business.

**HAS FAITH—BUT . . .** In Berlin, Hubert Herbst, German inventor, refuses to believe that flying is strictly for the birds. So he invented a pair of wings, which, Herr Herbst is confident, will enable him to soar through the air. Despite Herbst's confidence, however, he prefers to be anchored to something solid as he tests his home-made pinions. So here you see him flying with the assist of a crane. This is the first time he gained any altitude with the wings.

with her brother in law and sister, Mr. and Mrs. Art Bibby. Mrs. Hans Bardenhagen and Mrs. Gordon Lemley went to The Dalles Monday where Mrs. Lemley entered the hospital for overnight. Mr. Lemley went after her Tuesday.

**DISTINCTIVE FUNERAL SERVICE WITHIN THE MEANS OF ALL**

**SMITH-CALLAWAY CHAPEL**

Leonard R. Smith  
The Dalles, Oregon  
Phone 3135

Starting Friday, July 25 and continuing to Monday, August 18 the slaughter house will be closed at Grass Valley

## Security

**SECURITY**, to Americans, has many meanings. In the Army, it can mean a sturdy rifle with plenty of ammunition. Or the affection of a small furry dog, nestled in the crook of an arm. At home, it can be a neat suburban house, a diploma, a business of your own.

Security has as many meanings as there are Americans to defend it.

One good way you can provide security—for your family and your country and yourself—is to purchase Defense Bonds.

It may seem a small thing. Yet every time you buy a Defense Bond you are saving toward financial independence. You are also helping to build a strong economy—just as our armed forces are building the military strength that spells security—and peace.

However small your income you can't afford not to save. Bonds are sold through the Payroll Savings Plan. Why not sign up—now?

**HERE'S HOW E BONDS NOW EARN MORE MONEY FOR YOU!**

Now safe, sure U. S. Series E Defense Bonds pay an even better return than ever before . . . thanks to 3 brand-new money-earning features just announced by the U. S. Treasury.

1. Now every Series E Bond you buy begins earning interest after only 6 months. It earns 3% compounded semiannually, when held to maturity. It reaches full maturity value earlier (9 years 8 months) and the interest it pays is now bigger at the start!
  2. Every United States Series E Bond you own can now go on earning interest for 10 more years after it reaches the original maturity date—without your lifting a finger!
  3. During the 10-year extension period, every unmatured bond earns at the new, higher interest (average 3% compounded semiannually). Your original \$18.75 can now repay you \$33.67. \$33.50 pays back \$67.34. And so on.
- Start now! Invest more savings in better-paying United States Series E Defense Bonds—through the Payroll Savings Plan where you work or the Bond-A-Month Plan where you bank!

**Peace is for the strong . . . for peace and prosperity save with U. S. Defense Bonds!**

The U. S. Government does not pay for this advertising. The Treasury Department thanks, for their patriotic donation, The Advertising Council and

## What it takes to find oil for you

Not too long ago, within the memory of living men, exploration for new petroleum deposits here in the West was a matter of discovering oil seeps or drilling on "hunch." But even hunches had a reasonable chance of success. Although methods were primitive, the early Western fields were brought into production at a cost which nowadays would seem extremely low.

It's not so easy today. Most of the easily discoverable deposits have been found. But Standard geologists, using seismograph and the latest electronic methods, are combing every promising part of America, from Louisiana swamps to the Arctic Circle . . . and many foreign countries as well. As oil has become more difficult and expensive to produce, your demand has become greater. More and more of the good things in your life depend on petroleum for fuel, or lubrication, or their actual ingredients.

To do its share in the great new search for oil, Standard alone has spent more than \$230,000,000 in the last 5 years. Result: U.S. companies altogether have found enough untapped petroleum to give this country its highest oil reserve in history—four times greater than that of 30 years ago. Geologists estimate that there are still 1500 billion barrels of undiscovered oil in the earth. Standard Oil Company of California does everything possible in large scale exploration to increase available reserves.

**STANDARD OIL COMPANY OF CALIFORNIA plans ahead to serve you better**
