Dear Folks -

Just a note to let you know I'm still o. k. Things aren't too bad over here but they keep us plenty busy and I'll sure be glad when my time for rotation comes! Well, it won't be too long now and after all, if you're going to keep a democracy I guess everyone has to pitch in.

Just a lonesome G. I. writing home.

He's helping in the armed forces. But there are things you can do to help, too. One of the most important of these is buying United States Defense Bonds.

Tens of millions of Americans own Defense Bonds now—more than 49 billion dollars worth! And every time you add to the total, you are helping to stabilize your country's economic power, making and keeping it as strong as the G. I.'s are keeping her military power. Remember, it's your bonds and other forms of saving that keep your country strong. And in these troubled times, peace is only for the strong!

So how about starting a patriotic program of regular savings now—by buying U. S. Defense Bonds through the Payroll Savings Plan where you work. It's one sure way to save!

Here's how E Bonds now earn more money for you!

Now safe, sure U. S. Series E Defense Bonds pay an even better return than ever before.

1. Now every Series E Bond you buy begins earning interest after only 6 months. And the interest it pays is now bigger at the start!
2. Every Series E Bond you own can now go on earning interest for 10 more years after it reaches the original maturity date.
3. During the 10-year extension period, every bond earns at the new, higher interest (average 3% compounded semiannually).

Start now! Invest more savings in better-paying United States Series E Defense Bonds.

Peace is for the strong... Buy U.S. Defense Bonds regularly!

The U. S. Government does not pay for this advertising. The Treasury Department thanks, for their patriotic donation, the Advertising Council and
