## DISTANCE makes the Heart grow Fonder

You'll discover this about a Buick:  
The more you drive it, the more you like it; the longer your trip, the louder your praise.

That's what people tell us. And we'll tell you why.

You can drive a Buick three, four, five hundred miles in a single day, and feel fresh enough to keep right on going.

You can romp up high hills, cruise straightaways, ease through traffic-tangled towns, clock off hour after hour of relaxed and pleasurable driving—and be no more tired than a neighborhood jaunt would make you.

How come this comfort-rich ground-covering ability in a Buick?

There's the ease of deep, soft seats for one thing—and plenty of move-about room for arms, legs, shoulders.

There's Dynaflo Drive\* taking all the chore out of driving, and giving your whole ride a satiny smoothness without trace of jerkiness or driving tension.

There's a hoodful of thrilling, tireless power from a high-compression, valve-in-head Fireball 8 Engine that whips out miles like a tarpon reels off line.

There's the soft, steady, solid, swerve-free going of a coil-spring-cushioned ride that's well worth the million-plus dollars it cost to engineer.

There's all this and more—much more—that makes your heart grow fonder of this trim and thrifty traveler.

But words can't do justice to a Buick in motion. Only you can.

When will you come sample this experience yourself?

Equipment, accessories, trim and models are subject to change without notice. \*Standard on Roadmaster, optional at extra cost on other Series. †Optional at extra cost.
