From where I sit... by Joe Marsh

Just a Little "Outdated"

Back in December we sent out our yearly calendar. It listed the last date for renewing drivers' licenses, and things like the dates for registering to vote, when the hunting and fishing seasons open — even suggested you note down the wife's birthday, too.

I figured dates like these were important to keep in mind — and this was a good way to do it. Unfortunately, it now turns out I never really paid close attention to my own calendar!

Not 'til today that is — so here I am not able to drive the car this weekend until I get my driver's license renewed on Monday!

From where I sit, I guess good advice, like charity, should begin at home. I'm always advising all of you to worry less about your neighbors (what they do, or say, and whether or not they should enjoy a temperate glass of beer) and pay more attention to whether you yourself are doing the right thing. Guess I'll "make a note" to follow my own formula!

Richter & Klagenstein Obtained "VERY PROFITABLE RESULTS" from commercial fertilizer . . . AND SO CAN YOU!

Since 1949, they've used commercial fertilizer, both in re-cropping to wheat and in growing wheat after peas. (Their farm's in the Hogeeye area, Columbia Co., Wn.)

"Inexperienced in that type of farming, we were fortunate in obtaining the advice of Warren G. Marshall, now agronomist with Knette Farm Management Service. "His fertilizer recommendations were based on our available nitrogen and soil moisture. The results have been very profitable."
