It was threatening rain over the weekend, and the clouds hung heavy over this area, but not any rain fell. A few drops came down on Monday, but not enough to wet the ground. With it came the west wind and cooler weather for the first of the week. Harvest still goes on in this part with the usual trouble with equipment and the quickie hired help, a farmer must hire for the short harvest week.

**HIGHWAY THROUGH HERE GETTING MUCH TRAVEL**

Travel on Highway 97 is increasing daily as the big trucks find their way to the best between Seattle and most Washington points and southern and central California.

This way has fewer curves and more advantageous grades than any route across Oregon from north to south. A look at the topographical map shows that the rise from the Columbia river to the uplands of central Oregon is more gradual in Sherman county than in any other county of eastern Oregon.
