From where I sit... by Joe Marsh

### The "Write" Prescription

Noticed three half-finished letters lying on the counter down at Jones' Drug Store last week. "Writing three at once, Doc?" I asked.

"No," Doc said, "you are—you and the rest of the town. Those are for the boys from our town who are at the National Guard encampment."

"Everyone who comes in adds a line or two, and when a couple of pages are filled, I mail them. That way the boys hear from folks who might not write otherwise. They sure do enjoy it."

From where I sit, little things can add up pretty big. A few short notes make a letter. Boys from our little town help build up a strong National Guard to protect our freedom. Even freedom is made up of a lot of things—living where we like, voting the way we think is right, choosing between coffee, tea, or beer at dinner. And anything that adds up to freedom gets my stamp of approval.

### FIRST to give you POWER STEERING!

### NOW! STEER WITH FINGER-TIP EASE!

Never before has steering a big-capacity harvester been so easy! With Powerflow hydraulic steering doing the work for you, the Minneapolis-Moline Self-Propelled Harvester turns smoothly, surely, up-hill or down, in or out of ruts, at a touch of the wheel! You stay fresh longer... get more done than ever before.

Powerflow steering is another in the long, long list of exclusive MM "firsts"—farm-proven advances that year after year make MM Harvesters outstanding for low-cost, high-profit harvesting.

Threshing used to be the hardest work of a farmer's year and it has been made easier by machinery until now it is almost play when the new Minneapolis-Moline self propelled is used. It handles so easy and threshes so well.

It is a far cry from the days of the hand sickle, the scythe, the tread-power, the horse-power, the steam thresher or, for that matter, far ahead of any combine ever built.

WE WILL GLADLY SHOW YOU HOW THIS MACHINE OPERATES WHEN YOU—
