WHAT'S DOING

Cal Horn, your Telephone Manager

No extra charge for repairs

Your telephone is ruggedly built and doesn't often need repairs. In fact, it's so easy to take care of that about all you have to do to it is dust it once in a while and see that its cords don't get twisted. But if it ever should need fixing, please let an expert from our office do it for you. After all, your telephone is one thing in your home that's repaired and maintained at no extra charge to you. This is one way we protect its usefulness to you... to make, and keep, your telephone a real bargain in your family budget. Pacific Telephone works to make your telephone a bigger value every day.

Call ahead for reservations

You're off to a good trip when you line up hotel or motel reservations ahead of time. And what better way than by telephone? It only takes a minute or two... costs but little. So, when planning weekend vacations... or while driving to your overnight stop on longer trips... why not call ahead and make sure the rooms you want will be waiting when you get there. You'll be surprised at how little it costs to have the peace of mind that will make your whole trip more fun.

My First Big Dollar—

Sorry, I don't have it, but I do know its value and what it will buy. When I was six years old my father said, "Son, I am going to teach you the value of a dollar." So I found myself selling newspapers, a business venture which taught me that whenever I spent a dollar I should always get a 'dollar's worth'. The point I want to make is that I do know telephone service is today's best "buy"; also, you can have an extension telephone—a second instrument in your home or business for a fraction over a dollar per month. When you consider the convenience and steps saved—well, for my money, it is "tops for full value"! Call our Business Office and we shall be pleased to take your order. Pacific Telephone
