H. A. "Barney" Byers has returned home from a few days visit with his sister in Battle Ground, Wash.

Andy Paulson and family are taking a vacation this week. Their destination was not disclosed.

County Agent T. W. Thompson is on his annual vacation and is rather quiet around his office in the courthouse. At least part of the vacation is being spent in working around home.

Mr. and Mrs. Charles Adlard returned Saturday from Camp Sherman where they were guests of Mrs. Frances Henrichs.

Guests of Mr. and Mrs. Charles Burnet this week are Patricia and Tommy Thompson of Walla Walla.

**CATTLE MARKET SLOWER**

Contracting cattle for fall delivery has slowed down considerably. Contracting this year has been quite spotted with only a few deals made in any one area of Oregon. This may mean that contractors are anticipating lower prices due to forced marketings this fall.

Moro Lodge No. 113 I.O.O.F. Meets 1st and 3rd Tuesdays in I.O.O.F. hall. Transient and visiting brothers are cordially invited.

From where I sit... by Joe Marsh

**"Nothing to Sneeze At"**

This year our town decided to do something about its hay-fever sufferers. Hap Thomas is our health officer, so he was made rag-weed "inspector."

"Can't see why anybody should be bothered by a few weeds," he snorted. "I say it's all in their minds." But Hap went on out to do his job.

Then, yesterday, I met Hap—looking kind of sheepish. His eyes were red and as he took out a big handkerchief, he sneezed. "Know somebody who isn't allergic, who'd like a job?" asks Hap.

From where I sit, I can sympathize with Hap. It's no joke. But as Hap admitted later, he was dead wrong in scoffing at the idea of hay fever. Making light of other people's ideas and opinions is a familiar trouble with a lot of folks. Whether it's hay fever, football or a choice of, say, buttermilk or beer as a thirst-quencher, I'm just naturally "allergic" to anybody who "knows-it-all!"

**How to stop extra wear on gears**

Even in the toughest operating conditions you can be sure your differential and transmission gears have full protection against wear by keeping the cases filled with RPM Multi-Service Gear Lubricant. It withstands the extreme pressures that develop in spiral bevel and hypoid gears. A special compound in the lubricant reacts chemically to form a lubricating, wear-resisting coating on the gear teeth.

RPM Multi-Service Gear Lubricant stands up in high operating temperatures and is oxidation resistant. It contains an anti-foaming agent that helps control expansion and prevent leakage. Ask us about RPM Multi-Service Gear Lubricant.
