The Buick Special—A Standout for 1955

SLEEK NEW STYLING and record-high horsepower make the Buick Special four-door sedan for 1955 a standout in the lower priced field. Its V-8 power plant has been increased to an all-time high of 188 horsepower which, with Buick's new Variable Pitch Dynaflo transmission, gives the Special performance and maneuverability unequalled by

any automobile in its field. Setting a new styling trend are a wide-screen grille and a roll-over bumper with sturdy dual wing guards. For the first time, Buick's choice selection of power assistance—power brakes, power steering, window lifts and front seat adjustment—are available as optional equipment on the Special.
