MEN

While you are laying around these winter days wouldn't it be entertaining to paint up some of the things around the ranch. Maybe not the buildings, but the plows, drills, tractors and even the small tools that look better and handle better for paint and a good cleaning that always goes with paint. We have the kind of paint you'll need

WOMEN

And while the men are painting (if and when) we invite the women to come in to our store and look over our new wallpaper sample books. We furnish a soft chair, a spot in the sun and our very best advice. There's paint samples to look at also and samples of wall coverings and decorative materials.

Telephone man gets 20-year service pin from air line. Since 1931, Pacific Telephone Switchboard Installer Jim Bailey, left, has worked on most every telephone job at United Air Lines' San Francisco office. The people there say they've become so used to Jim's good work and quick smile that they think of him as one of their group. As a result, they recently awarded him one of their 20-year employees' service pins. We believe Jim's pretty typical of all telephone installers. For your "Telephone Man" works to do the best possible job, to bring you the good low-cost service you like . . . and does it with a smile. Pacific Telephone works to make your telephone a bigger value every day.
