**Dunham MULTI-SKEW TREADER**

UNEQUALLED ON STUBBLE MULCHING

It gives a stirring and shattering action on the top two inches of soil without burial of residues. At the same time it gently treads and firms the soil beneath, thus effectively retarding wind and water erosion.

The Dunham MULTI-SKEW-TREADER is a most profitable tool because it is useful throughout the entire planting and cultivating season. With various adjustments it can be used for MULCHING, WEEDING, PULVERIZING, CULTIVATING, and TREADING.
