County Ramblin's

County Agricultural Agent

Direct report from Washington on activities of the Oregon Wheat Growers league will be given during the spring meeting of the Sherman county association at 8 o'clock April 27 in the Masonic hall at Wasco. Calling All Wheat Growers is the theme of the meeting to which everyone is invited.

Robert Taylor or Dick Baum from the league office in Pendleton are expected. Mr. Taylor is a wheat grower near Adams and has long been associated with the wheat program on the national level and is now administrator of the commission. Baum is secretary of the league and recently made a trip to the orient to sell wheat.

County chairmen for the various standing committees will report on progress since the annual meeting in Portland. Recommendations from the county are needed to give further direction to the league for the remainder of the year.

Paulen Kaseberg, member of the wheat commission for a number of years will complete his term July 1. Recommendation for replacement is desired from members. Naida Whybark, home economist for the league, will not be able to attend. Wives are invited to come anyway.

Frances T. Bibby Dies

Brea aqua news

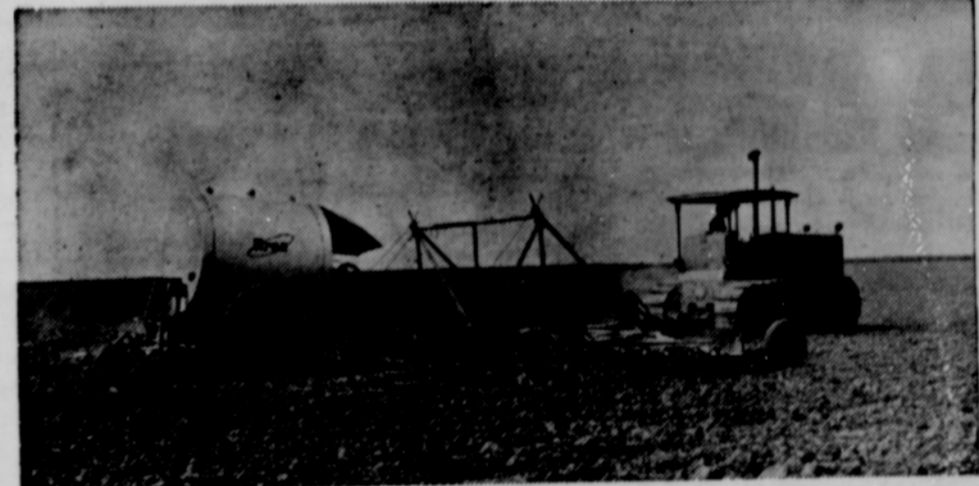

Warren Wilkinson Says

DID YOU KNOW THAT: (1) According to the California Bureau of Chemistry, California growers used more than three times as much aqua ammonia (20-0-0) the first 9 months of '54 compared to the same period of '53? (2) The rate of increase was 26 times that of any other non-solution type of nitrogen fertilizer? (3) At the same time, Aqua jumped from 5th to 2nd place in total tonnage? Shows what can happen when you take the lift and lug out of fertilizer handling with low-cost fertilizer simples-in-solution. I like to tell my customers that "with Brea Aqua you don't lift anything heavier than the end of a two-inch hose!"

OUR DRILL APPLICATION RIGS are doing a nice job for customers these days, and naturally we are well equipped and ready to handle more customer acreage. Things are happening so fast in the fertilizer business that I know we can save you money and do a better job if you will let us bid on your nitrogen needs.

GROWERS WHO OPERATE their own application equipment have found that "One-Man-Handling" per tractor, with Brea 'Aqua', soon pays the cost of changeover. With high-speed transfer pumps to refill applicator tanks in a few minutes, it no longer takes two men to keep a rig rolling. Many Brea growers handle equipment modification in their own shops.

Shallow Drilling of Soak-In-N Pays Off for Grain Growers

SHALLOW DRILL APPLICATION of Brea Aqua Ammonia minimizes soil and seed bed disturbance, conserves soil moisture, cuts time and equipment costs.

More and more local grain producers are boosting yields and profits with Brea Aqua Ammonia... low-cost, high performance nitrogen-in-solution. Brea Aqua is a "natural" for grain. It combines easy, mechanized fluid handling with shallow drill application which soaks nitrogen into the soil at just the desired number of pounds per acre. Brea's Agricultural Technical service offers these recommendations for dry-land grain: Vary the application rate with average rainfall expectancy as follows. In California: 8-12 inches of rain—30-40 lbs. N per acre; 12-18 inches of rain—40-50 lbs. N per acre; 18-24 inches of rain—50-60 lbs. N per acre; and above 24 inches of rain—60-75 lbs. N per acre. In Washington and Oregon: 8-15 inches of rain—30-50 lbs. N per acre; 16-23 inches of rain—50-70 lbs. N per acre; above 23 inches of rain—70-90 lbs. N per acre. Soil tests are recommended to determine phosphate requirements. For more information and assistance in planning your nitrogen and phosphate schedules—call us today. We'll be happy to show you how Brea 'Aqua' pays for itself over and over again. You'll like our prompt service, low cost, per pound of nitrogen applied convenience in handling and the exceptional results.

Just call us and we'll come out and show you how Brea Aqua Ammonia can make more money for you.

Thank-you
By this means we want to express our sincere thanks to the people of Grass Valley and vicinity for their consistent patronage during the twenty years we were in the Union Oil Company. It was much appreciated. Mr. H. L. Owens will take over April 25 and we hope you will extend him the same patronage. We are now at your service in the Fields' Confectionery.
