WHEAT ELECTION

This newspaper for 15 years has consistently opposed approval of marketing quotas under the present farm plan. It has said that the farm program worked to the detriment of wheat growers of this county and the northwest who could produce wheat cheaper than others and they would be better off on an open market so they could compete on price and quality, because they could naturally raise wheat cheaper and better than most.

WISE DECISION

The Oregon State Grange at its annual convention held last week in Klamath Falls voted to support the federal plan of reapportionment of the state legislature. The plan, when approved will give each county one senator. That is why it is called the federal plan because it resembles the method of apportionment in the United States congress.

JOHN DAY DAM FUNDS

Probably no one expected the house appropriations committee to approve funds for the John Day dam. It never has. Getting funds for a new start on a dam in the Northwest from that committee is very difficult indeed.

BUDGET VOTE

On June 29 voters of Sherman county will have a chance to vote on the county budget. They can approve or disapprove a levy in excess of six percent above the base.

If there was some way of circumventing the politicians and getting the power development of the northwest into other hands we are sure the John Day dam could be built. That is very hard to do for the politicians take toll for everything, but into everything, assume authority over everything for their own purposes until it appears that the power development will have to wait until some new political toy comes along to distract their attention.

IN APPRECIATION

Due to the necessity of vacating our home in Grass Valley by June 1, we were unable to personally see all the friends and business acquaintances who contributed so much to our success in Sherman County. We take this opportunity to offer our sincere thanks to them, and to say that we are looking forward to seeing all of them again.

THE BAUMGARTNERS

From where I sit ... by Joe Marsh

Handle With Care

Tractors are like horses—or mules—in more ways than one. They can be pretty tricky if you don't handle them right.

Too many tractor accidents happen because of carelessness. The day grows hot and drowsy, the job grows monotonous—and the job grows forgetful to throtling! Someone forgets to throtling down when making a turn, or something, and there's a bad spill.

Credit Slim Hartman's misss for the fact that there's never been tractor trouble on their place. Midway through every morning and afternoon she brings him snacks. "He'll stay on the alert," she says, "if I get him off the tractor for ten minutes."

From where I sit, carelessness can cause plenty of harm in our off-the-job personal lives, too. For instance, suppose a neighbor prefers a glass of beer with supper. You might not share this particular preference with him—but if you're careless about protecting his right to choose, your own freedom of choice is in danger of being "plowed under."
