WHAT'S DOING
Cal Horn, your Telephone Manager

How telephone drivers guard your safety

Protecting your safety and that of your family is a big part of every telephone driver's job. And to prepare our drivers for this responsibility, we give each a special course in what we call defensive driving. This teaches telephone people to drive in such a way as to prevent accidents no matter what others may do. And it really pays off. For example, telephone drivers covered more than 80 million miles last year without a single fatal accident. Naturally, careful driving like this helps make the streets safer for everyone. And by helping us keep skilled people on the job, it enables us to work faster and more efficiently... to bring you good telephone service. Pacific Telephone works to make your telephone a bigger value every day.

How to help people get in touch with you faster

If the telephone number at your house isn't now listed under your name, it easily can be. In fact, everyone in the family—Mom, the youngsters, resident "in-laws", and so on—can have a separate listing. By having your own name in the phone book, you make it easier for people to get in touch with you. It can be the difference between getting or missing important calls. And you can have your own listing at small cost. So why not call us at your telephone business office and talk it over.

DATES! DATES! DATES!
They don't all grow on trees and there are many kinds of dates! We have a new date for you. Yes, the Grass Valley, Moro, and Wasco telephone bills which have been dated the 21st of each month are changed to the 9th. Your July 21st bill will be for only 19 days and will adjust your account to your new billing date of August 9th. By spreading the work of preparing bills will make it possible to serve you and other telephone users more efficiently and economically. I am sure you'll find this change convenient.
