Birthday cake and pop were served later by den mothers, Mrs. Myrtle Smith and Mrs. Elton Eakin.

Mrs. Bernice Wilt, widow of John H. Wilt, one-time Grass Valley merchant, died in Portland last week at the home of her

Chevrolet Introduces Restyled Corvette

Chevrolet adds another chapter to its pioneering achievements with a new Corvette in the sport car field. Among principal features are a power-actuated fabric top lift and a removable solid top, which like the body is built of reinforced glass fiber plastic. The car has been completely restyled and offers either a manual or Powerglide transmission coupled to a V8 engine of 225 horsepower. In appearance the latest Corvette may be readily distinguished from previous models. Rear fenders sweep downward and the sides of the body carry a sculptured depression. Exterior color choices list black, green, copper, red, blue and white, with the cockpit color-keyed in beige or red.

Olympia ...with pleasure!

For added satisfaction during leisurely evenings at home, enjoy a cool glass of refreshingly light Olympia Beer.

daughter, Mrs. Ray Blake and funeral services were held in that city. Mrs. Wilt had also lived in Moro when Mr. Blake was in the bank here.

Wall Street Journal Editor To Speak

Bernard Kilgore, president of the Wall Street Journal, will be the 10th annual Allen lecturer here and will give the main address at the 37th annual Oregon

Press conference, February 17 and 18, trustees of the Eric W. Allen memorial fund have announced.

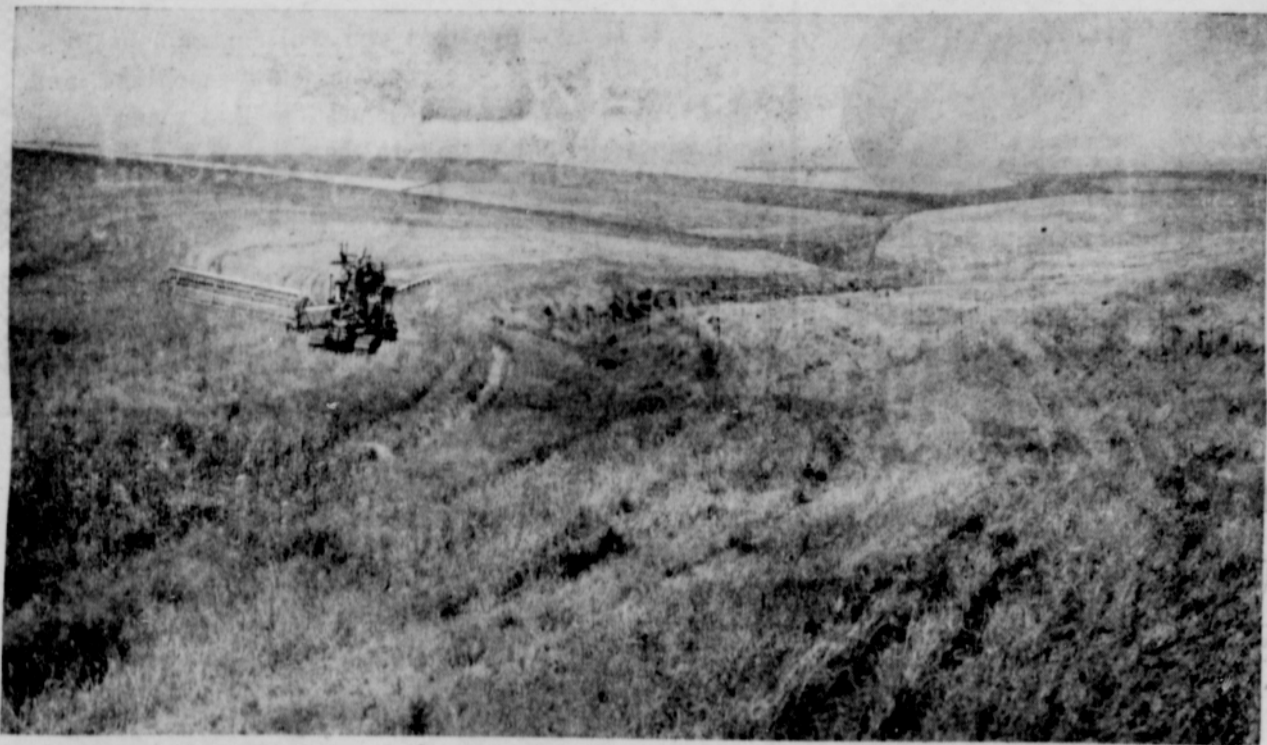

Kilgore, a native of Indiana, graduated from DePauw university in 1929, as a member of Phi Beta Kappa and Sigma Delta Chi. He immediately went to work for the Wall Street Journal's New York copy desk. He was transferred in December of that year to the paper's new San Francisco office. Three years later he moved back to New York to write a daily column.

This is an advertisement for the Sherman County Journal

The opportunity to talk about it doesn't occur very often in these pages. But we can't talk about the Sherman County Journal without talking about Sherman county for the two are all tied up together; the owners were born in Sherman county and so was the paper, before there was a county, in fact.

The paper depends on the county for news and the county depends on the paper for news. The Sherman County Journal has but one reason for existing and that is to help the county and its people. When and if it quits doing that it won't last long but we don't intend to quit.

We talk about wheat, how to grow it, what kind to grow, where to sell it. That includes a lot of things, the experiment station and its new wheats, its tillage experiments, fertilizers, rain-makers, harvesting, storing, milling, baking, eating.

For variety we talk about cows, fat cows, stock cows, steers, bulls, feed rations, grass, prices, eating.

In this county we produce the staples of good diet all over the world and in any age or era or century—bread and meat. Some years we produce enough wheat to feed the whole state its bread and cake and cookies and ice cream cones combined. We don't produce as large a percentage of the state's beef but we work at it and the quality is good from good breeding and good grass and good grain.

And while the Sherman County Journal is talking about wheat and beef it is also talking about other things, about people, about taxes, about schools, about politics, about roads. It talks about such things every week or some of them. Nobody agrees entirely nor are they expected to agree. One must say very simple things to obtain entire agreement.

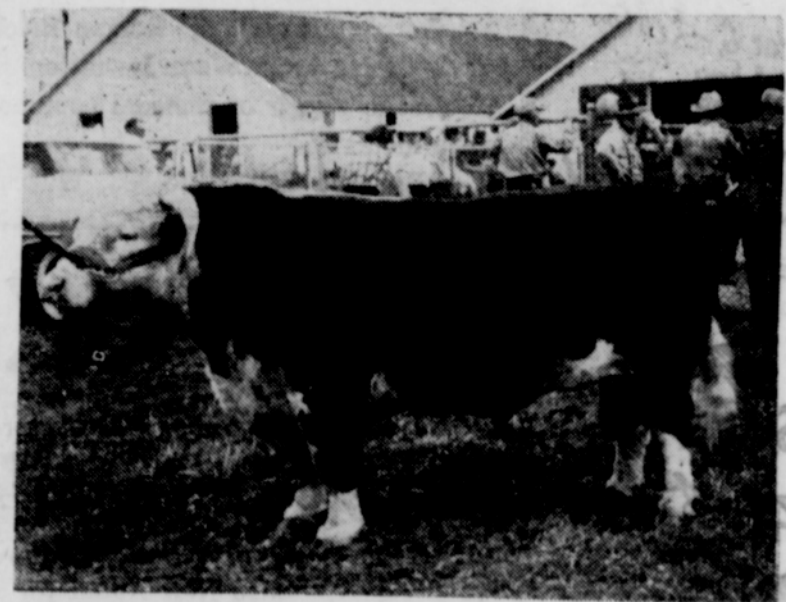

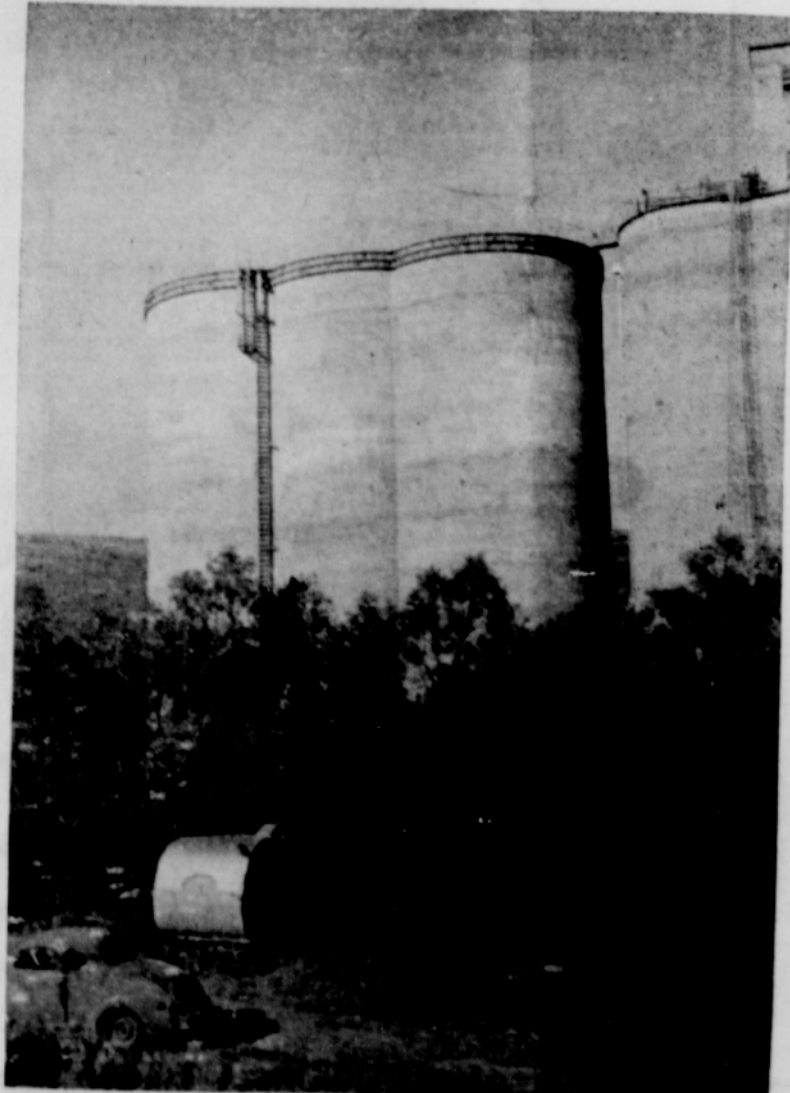

good many of the things not to do. We spent eight years farming in the days of horses and mules, poor crops and cheap wheat.

We like the county or we would have been gone a long while ago. We may, God willing, be around for quite a while yet.

A newspaper seldom writes to achieve complete agreement. More often it writes to stimulate thought believing that from thought will come the best programs.

We've been at this business now since 1929 and next March will have been in the county seat for 25 years. In that time we have learned a few of the things to do and a

conservatism raised to the Nth degree which is too high.

We could have representatives of more professions if we'd support them; we could have better retail business if we'd support that; there's lots of things we could have with a little change.

But its pretty good—and we like it. So do you.
