PARIS TAXIS, African river boats and Australian airliners run on gasoline produced by Standard's affiliates. Last year in addition to our Western operations, we* produced oil in 5 Eastern Hemisphere countries, processed it at 15 overseas refineries, supplied petroleum products to 67 countries outside the Iron Curtain. The result was a big boost for industry of Free World nations, conservation of U.S. oil reserves, and a higher standard of living for the peoples of many lands.
