For faster hot water service get a new "quick recovery" electric water heater!

ELECTRIC PROGRESS! Speedier, more efficient communication by means of the electronic FAX machine! Telegrams printed by facsimile waste no time — they are transmitted instantly between business office and local telegraph office.

The new "quick recovery" electric water heater is speedier, more efficient. Larger capacity heating units, designed for rapid action, heat water as fast as you use it. You have all the hot water you want, all day long! Water is heated to 150 degrees in minutes—that's *quick recovery!* And yet these amazing, new electric water heaters use no more electricity per gallon of hot water than standard types.

When you buy, you save. The thrifty 40-gallon size provides plenty of hot water for almost any family because the faster-than-ever heating units replace hot water quicker. And, with low-cost electric service from Pacific Power, you can have all the hot water you want for only a few cents a day.

Find out all about the new automatic electric water heater with the "quick recovery" feature from your appliance dealer or plumber.
