HERE'S A HOUSE WITH WEARY WIRING...

Lights dim when appliances go on

wiring just won't take heavy-duty appliances

there aren't enough outlets

fuses blow out

one appliance has to be unplugged before another can be used

If your house has "weary wiring" then here's the plan for you... **Reddy Kilowatt's TIME-TO-REWIRE PLAN**—for all PP & L customers!

Pacific Power will completely finance the additional wiring you need for your home

You can pay as little as \$3 a month along with your low monthly electric bill. No money down; take as long as 3 years to pay (maximum contract, \$350).

The **Time-To-Rewire Plan** is your opportunity to better your electric living now. Enjoy the full benefits of efficient, up-to-date wiring and the latest in modern, work-saving electric appliances.

And with the Time-To-Rewire Plan you also can finance the purchase and installation of a new, faster-than-ever electric water heater.* Here's the modern way to have all the hot water you want all day long. Because of larger capacity electric units, the new "quick recovery" electric water heaters heat water quicker and replace it faster—yet use no more electricity per gallon of hot water than standard types.

*Purchase and installation of permanent lighting fixtures may also be included in the Time-To-Rewire Plan.

For complete information about the Time-To-Rewire Plan see your appliance dealer, your electrical or plumbing contractor, or stop in at your Pacific Power & Light office.

Use the **TIME-TO-REWIRE PLAN** and live better... electrically.
