The answers to everyday insurance problems*
By Frank Ketter

QUESTION: Suppose I get two insurance companies to each carry a full coverage Fire policy on my \$15,000 home. If it is completely destroyed by fire do they both pay off in full?

ANSWER: No, it's pretty well arranged so no one can legally profit from a fire. Each company would pay its proportionate share of the loss.

*If you'll address your own insurance questions to this office, we'll try to give you the correct answers and there will be no charge or obligation of any kind.
