From where I sit... by Joe Marsh

## Changed Her Whole "Point of View"

Some local high school teachers spent the summer taking courses at the State University. They learned a lot, but one of them—Miss Williams—got homesick.

"To save expenses," she reports, "we chose a hotel that was clean but grim. When I found my window looked out on a coal yard—my heart just sank!"

But, when Miss Williams noticed a pot of geraniums on the window sill—and a note saying "Look at these instead. (signed) Last Occupant"—she decided to stick it out. She kept those flowers

watered and tended to make things that much easier on the next occupant.

From where I sit, it's often hard to adapt to new surroundings—just as new customs often seem strange to us at first. For instance, if you've always had tea with your meals you might find it odd that I prefer a glass of beer. It's OK to prefer what's familiar to you... but also keep an open mind on what's not.

## WHAT'S DOING

Cal Horn, your Telephone Manager

## "Teletrainers" teach best phone use

Any day now that high school youngster of yours might surprise you with some good tips on how to use the telephone. He'll get his ideas at school from telephone equipment called a "Teletrainer." It's a device that was created by telephone people especially for high school teachers and pupils. It teaches the students how to develop a good telephone personality, how to use a telephone directory and how best to place out-of-town calls. Above all, it teaches good telephone habits, the kind of habits that help everybody get better service from their telephones. The men and women of Pacific Telephone work to make your telephone more useful every day.

## Color phones will dress up your home

When you're dressing up, color's important. You want your shoes, hat, dress or suit to complement perfectly. When you're dressing up your home, color's important, too. That's why additional phones in color fit right in. They come in eight exciting shades—red, yellow, green, blue, brown, beige, gray and ivory—as well as "two-tone" combinations. The cost? Only 1.25 a month for each additional phone after a single installation charge. Why not call us right now and ask about adding phones in color?

## Pinpointing . . .

A friend of mine told me about an interesting experience he had with the yellow pages—the Classified section of the Telephone Directory. He said, "When I am in the market to buy a certain item and want to know where to buy it, I just PINPOINT it in the Classified section. Yes, a dealer of a name brand refrigerator sold one without sales effort because my wife and I knew what we wanted. His advertisement in the yellow pages was his silent salesman!" This goes to show that the Classified section can be used to advantage by seller and buyer alike.
