**McKAY and the OIL COMPANIES**

• a pattern of favoritism to special interests

Three times Douglas McKay as Secretary of Interior sold Oregon short to enrich already wealthy Texas oil interests. McKay now asks you to let him represent Oregon's interests in the U. S. Senate.

**HERE IS THE RECORD...**

1. **McKAY SOLD OREGON HOMEOWNERS SHORT** when he fought for a law to free natural gas rates from federal supervision. Natural gas is now being introduced to Oregon. Under McKay's plan, YOU would have paid higher rates in order to give extra profits to Texas oilmen.

Only after GOP Senator Francis Case, Senator Morse and others had exposed possibly illegal attempts by the oil and gas lobby to pressure Senators into supporting this bill, the President decided to veto it, even though he supported the bill in principle.

But McKay, who now is running for Senator on the President's coattails, fought against the veto to the last.

Here's how the nation's leading oil magazine described McKay's actions:

"... The President discussed with the Cabinet whether he should veto the bill. One by one, other Cabinet members swung around to the President's view, McKay never did. On the final Cabinet vote, McKay was still voting against the veto."

Small wonder then that "Petroleum Week," in the editorial just quoted, lauded McKay as "one of (the oil industry's) strongest supporters in the Administration."

2. **McKAY SOLD OREGON PARENTS AND CHILDREN SHORT** when he put the weight of his Cabinet office behind the hand-out of offshore oil riches to Texas and three other coast states.

Three times the Supreme Court had affirmed the Nation's paramount rights to these oil-rich lands. For years Senator Morse had been a leader in the effort to earmark revenues from them for badly needed aid to education.

But McKay fought the oil industry's battle before Congress and we still have no general aid to education program.

3. **McKAY SOLD OREGON SPORTSMEN SHORT** when he opened up federal wildlife sanctuaries to extensive oil leasing. Senator Morse was the first in Congress to protest this threat to preservation of native American fish and wildlife.

Your Senator's objections were echoed by a unanimous condemnation of McKay's action issued by both Republican and Democratic members of the House Fisheries Committee. After its investigation, the bi-partisan group concluded:

"Such increased activity in the issuance of leases by the Secretary of Interior (Douglas McKay), or by those under his immediate supervision, can only result in serious damage to the wildlife refuge system in this country."

The committee commented that its investigation showed "a picture of extreme administrative confusion" within McKay's Interior Department.

**IT STANDS TO REASON...**

There have been only two \$100-a-plate Republican fund-raising dinners in Texas history, and one was in Joe's (McCarthy's) honor. The other was for Secretary of Interior Douglas McKay.
