Now flowers speed cross-country by telephone. Many floral shops now offer a new service—Flowers by Telephone. When flowers are to be sent out of town, the florist calls the distant city and places the order before the customer leaves the shop. If the flowers asked for are out of stock, the customer is free to change his order, knowing his flowers will arrive on time. Florists who offer this new service display an emblem reading: "We speed flowers by telephone." It's another way telephone people—working with florists—make telephone service do a better job for you. The men and women of Pacific Telephone work to make your telephone more useful every day.
