## He gave the world faith in the American Dollar

The year was 1789. A new republic had been born. On the shoulders of this slight, dynamic, young man—32-year-old Alexander Hamilton, our first Secretary of the Treasury—fell the tremendous responsibility of establishing a national currency that could be trusted.

The task seemed unworkable. The country's currency was so poor that it earned the phrase "not worth a continental." Debts owed by the Federal Government and by the 13 colonies totaled almost 80 million dollars—a towering sum in those days. The Government had practically no revenue, and its bonds sold at ten cents on the dollar.

But Hamilton was a man of vision and a man of action. His bold, new program to the Congress for re-establishing the nation's credit and giving America a sound dollar was based on three simple but vital principles:

That the public debt is a sacred obligation which must be honored completely;  
That the nation must balance its budget by collecting enough taxes to pay its bills;

That we must have a sound banking system working for the public interest.  
Thus were laid the foundation stones for making the dollar the best money in the world today. And faith in the American dollar is, in turn, one of the reasons for the great prosperity and economic growth of our country.

There is no finer way to pay tribute to this great American on this, the 200th anniversary of his birth, than by carrying forward the great tradition of these sound financial principles.

Money invested in United States Savings Bonds helps keep the dollar sound. Take advantage of this safe investment today. Sign up for the Payroll Savings Plan where you work. Or invest in Bonds where you bank. You'll be helping to secure your own future and America's.

### Now you know!

The answers to everyday insurance problems\*

By Frank Ketter

\*If you'll address your own insurance questions to this office, we'll try to give you the correct answers and there will be no charge or obligation of any kind.

QUESTION: Can you tell me what is meant by the term, "short rate basis"?

ANSWER: Generally it means that when insurance is cancelled, the charge for the time it was in force is more than would be proportionate to the total term of the policy. This is because the cost of writing, issuing and terminating the policy must be absorbed over a shorter period than was expected.

### 4-H LIVESTOCK CLUB MEETS

By Jeannette Belshee  
Sunday, January 6, at 1:30, 20 4-H club members met at the home of Dr. and Mrs. Frank D. Reid for the second meeting of our 4-H year.

The meeting was called to order by President Lee Kaseberg. The flag salute and 4-H pledge were led by Jim Thomas. Roll call was taken and minutes were read by secretary, Sally Fields.

Pamphlet books were handed out to all of the club members and reports for the next meeting were assigned to about half of the members.

Tommy Thompson gave a detailed but interesting talk on animal nutrition.

At this meeting we were supposed to select a name for our

club but it was decided that, due to a lack of imagination and variety in the suggestions we will decide on a name at the next meeting which is to be held at the home of Mr. and Mrs. Delmer Smith Sunday, February 3 at 1:30.

# PLAIN FACTS about TRAIN TRAVEL

Let's face it. You can travel higher and faster. You can also travel slower and, in some cases, for less money.

BUT...for real rest and relaxation and for more safety, comfort, service and convenience, take the all new Domeliner, CITY OF PORTLAND, to Chicago when you travel East.

Timewise...when the enjoyable minutes melt the miles like magic, it isn't so far anymore. For instance, you can leave Friday afternoon and arrive downtown Chicago in time for Church Sunday morning.

Costwise...it's less than you might think. For example a Reserved Coach Seat to Chicago from Portland is only \$59.10, plus tax. Compared, dollar for dollar, with other means of travel this is actually "Luxury Living" on wheels. And it's even less expensive when you take advantage of Family Fares.

You can stretch out and really sleep in deep leg and head rest seats or, at an extra charge, there is a wide selection of Pullman accommodations, from berths to spacious private rooms. Each car is completely air-conditioned and has extra large modern dressing rooms. There is soft, restful music in both Coach and Pullman cars.

You'll enjoy superb, reasonably priced meals of your choice in the beautiful Astra Dome Diner. You can relax with your favorite beverage in the colorful Dome Lounge Cars. You'll see America's historic Western Wonderland at eye level through broad picture windows or from the exciting new Dome Observation Cars.

It's true that in most cases you get only what you pay for. But we can honestly guarantee that Union Pacific's Domeliner, CITY OF PORTLAND, gives you more, much more, for your travel dollar.

See for yourself. The next time you're by Portland's Union Station, tell the man at the gate you'd like to go aboard the CITY OF PORTLAND. You'll see why we urge you to compare because, when you do, we know you'll agree that no other means of travel offers so much.

To secure reservations for the trip you'll never forget, call
