Rufus Personals

Mrs. George Fox

David Reid, son of Dr. and Mrs. Frank Reid of Rufus, left Monday for Portland where he boarded a Northwest Air Line plane bound for New York City. David will meet in New York his grandparents, Mr. and Mrs. David Reid Sr., who are returning via S.S. United States, a passenger liner, from a three months vacation trip to the British Isles. Upon leaving New York, the Reids plan on visiting in Canada on the way to their home in The Dalles. Young David has been driving a wheat truck for his father during harvest which is in full swing in this area so it was hard for him to get away at this time. But another truck driver to finish harvest, as it's not every day a lad gets a chance to vacation across the States.

Dr. and Mrs. Frank Reid and sons, Davie and Doug, had their boat out on the Columbia river Sunday but reported it was tough going with the wind blowing waves on the water.

Mr. and Mrs. Harland McDonald left Friday for Bend to spend a weeks vacation at the Oregon beaches and visited friends in Portland. They reported nice weather for the trip.

Most of the wheat farmers couldn't harvest until Friday of last week on account of rain the former weekend. Some who had farm storage harvested grain earlier in the week.

Mr. and Mrs. John Mathieson accompanied by their daughter, Mrs. Harry Hydorn and two children of Hinkle spent a week at a church conference in Portland. In Portland they met Mr. and Mrs. Adrian Roberts who used to live in Rufus when Mr. Roberts was pastor of the Rufus church of the Nazarene. They returned Monday and John said he was much rested from the Willamette valley air. Mrs. Hydorn and children took the train in The Dalles to their home at Hinkle.

WHAT'S DOING

Cal Horn, your Telephone Manager

Here's a new kind of "calling card." For telephone calling, that is. These odd looking cards are made by a process called "printed wiring." In certain kinds of telephone equipment they can form electrical pathways, replacing an intricate maze of wires. I expect you've heard about Automatic Answering Sets—phones that answer your calls when nobody's in. Well, they've got printed wiring in them. The cards eliminate a tremendous amount of delicate soldering and connecting, yet help us bring you better service.

Fire's a big hazard this time of year. So it's a good time for us all to get behind Smokey Bear's Fire Prevention Campaign. They say fire burned about 9 million acres of forest land last year. We can help by being extra careful to put out matches, cigarettes and campfires. I'm happy to pass along Smokey Bear's slogan right here: "Only You Can Prevent Forest Fires." Good point for all of us to remember.

MEET THE NEW CONSTRUCTION FOREMAN

This is Billy Pike who was recently transferred from Tillamook and promoted to Construction Foreman for the Wasco, Sherman and Gilliam County area. Pike started work with the company in 1948 as a lineman and has worked his way up through the ranks to his new position. He says, "I like the sunshine and the friendly people of this great Eastern Oregon country."
