The answers to everyday insurance problems

By Frank Ketter

"If you'll address your own insurance questions to this office, we'll try to give you the correct answers and there will be no charge or obligation of any kind."

QUESTION: Will my auto property damage insurance pay for damage I do to my own house in backing my car out of the driveway?

ANSWER: No. It covers only the damage you may do to the property of others. However, there is a form of household insurance which does cover such damage. Any good insurance agent could explain it to you.
