**4-H Club News**  
By Ann Hall, Reporter  
The Moro Livestock club met June 2 at Jean Ross' home. All members gave reports on what they feed their animals each day. After the business meeting we divided into two groups. One group on steers and one on lambs. In each group we had tips on showmanship.

Refreshments were served by Mrs. Gentry and Mrs. Ross.

**Would you refuse a gift of \$3000?**

Gain money you wouldn't otherwise have—possibly from \$1000 to \$3000! Let your Equitable man show you how you can put operating funds to work and still keep them available for use.

By setting up such accounts, he's helped farmers, ranchers, and other businessmen gain thousands of extra dollars. This program is backed by the association noted for safety since 1890. It's well worth finding out about: just ask your Equitable man, or send the coupon.

Your Equitable Representative says:

**We must look at the space age through eyes like these**

**One day they'll come to focus** on a career — in science...law...philosophy...medicine...engineering...the arts.

To prepare our youth in these challenging times, help is needed as never before say educators. Many companies are responding with financial and other aid.

Standard long ago recognized its obligation as a good citizen to help support our education system and for 20 years has encouraged and assisted young minds to explore the wide field of learning.

We have helped hundreds of students attend college, 241 this year alone. Included in our program are scholarships, graduate fellowships in engineering, science and business plus financial aid to university departments concerned... broad projects in basic research... outright money gifts to schools.

Besides these, a program of "learn by doing" kits, motion pictures, film strips, booklets have been used and acclaimed by teachers. To millions of children, the Standard School Broadcast has long meant an opportunity to hear and enjoy good music. All of these projects are continuing.

Worthwhile? We think so, because one of the most productive investments is in human beings—those who in time to come will take over responsibilities in industry and in our nation.

**Progress in education means...**

Preparing for 2,500,000 additional students in U.S. colleges and universities by 1968.
