Three Weeks from NOW

Small boys and smaller girls will be and grunting porkers before proud mamas showing their fat calves, their fleecy lambs and prouder papas while others look on with pride in their county, observing meanwhile that the process of learning has been going on during the year as children grow in knowledge and experience to make them better feeders and better showmen.

The remarkable thing about Sherman County Fair is that it produces better and better exhibits of livestock each year although old champions go on to other things

leaving their laurels to be bettered by those who come after them. That is real progress.

It makes the fair. Buckers come and go, races are won and lost; all exciting at the moment. But the constant development of better and better farm products is the most cheerful news. It is our only security.

The 1958 Sherman County Fair program is shaping up to be bigger and more varied than any in recent if not for any year since the beginning of fairs 50 years ago.

Don't miss it

Yes, a mere three weeks from now Harley Tuckers cowboys and cowponies will be at the fair grounds to entertain the crowds with dashing forays after dodging calves and strenuous feats of riding.

It will be a prime example of the great American Rodeo, professional roded, with accomplished performers and well-trained horses.
