Rufus Personals

Mrs. George Fox

The Rufus Home Ec club of the Rufus Grange are preparing to have the food booth at the Sherman County Fair again this year. Mrs. Harland McDonald will again be in charge with the rest of the members assisting her. Mrs. McDonald and Mrs. Atlee Wilson made a trip to Moro to clean up the booth, then Tuesday the men gathered the equipment, tables, benches, stove and grills to be put in the booth. John Milne is donating the use of a deep freeze for use at the fair. This will be the sixth year the Rufus Grange has had the food booth at the county fair.

Several new comers arrived to add to the population at Rufus this week which is just past. Mr. and Mrs. Howard Steward are the parents of a daughter born September 1 weighing 4 lbs 12 oz. She was named Julia Anne. The Stewards have three other children, Cathie, Steven and Mark. Mr. and Mrs. Luther Steward are the paternal grandparents.

Laura Lynn, a new daughter weighing 7 lbs. 4 oz. was born September 3 to Mr. and Mrs. Wayne Eaton. The little girl has a brother, Douglas. Grandparents are Mr. and Mrs. Eugene Eaton who have the Rufus Grocery and Mr. and Mrs. Roy Grant of Montana.

Neal Eaton, in service for Uncle Sam is spending his furlough with his parents, Mr. and Mrs. Eugene Eaton. Neal leaves September 26 from New Jersey for approximately two and a half years in Germany where he will be working in the hospitals. He is an operating room technician. Neal is the youngest son of the Eatons. Another son Gayle is in the service at Fort Lewis.

The Sherman Flying Service has been organized at Rufus for the purpose of fighting grass and wheat fires by using borate slurry from airplanes. This chemical has been tested by the U. S. forest service and works very well reports D. L. Baker who has charge of the service. The chemical is not harmful to stock or crops. This service will help control fires in this county during the fire season and will be able to reach the fire in less than thirty minutes after reported. A plane and pilot will be on duty from dawn to dark every day and can be called upon. D. L. Baker and Raymond Curtis will pilot the plane. A nominal charge for this service will be made.

Traugher-Kelly Wedding Held In Kent Church Friday Before Family and Friends

Miss Karen Kelly, daughter of Mr. and Mrs. Ted Kelly of Kent became the bride of Maurice Traugher, son of Mr. and Mrs. Fred Traugher of The Dalles, in a ceremony held at the Kent Community Bible church Friday at 3 o'clock. The Rev David Gaumitz read the double ring ceremony in the presence of relatives and friends. The bride, given in marriage by her father, wore a white lace and net over white satin floor length gown with short train. Her fingertip veil was held in place by a tiara of seed pearls. She carried a white Bible topped with an orchid.

Nancy Serles was maid of honor and wore a ballerina length gown of yellow cotton satin. Bridesmaids were Mrs. Gerald Kelly of Sacramento, Calif., and Miss Kay Traugher of The Dalles, they wore ballerina length gowns of beige cotton satin made identical to the maid of honor's and all wore head bands to match. They all carried bouquets of yellow chrysanthemums. Flower girls were the bride's cousins Twila Kelly and Mary Beth Francis, they wore pink nylon dresses with pink head bands of artificial flowers and carried baskets of chrysanthemums of yellow and rust. Ring bearers were Ardell Goss of The Dalles dressed in yellow nylon with head band of artificial flowers and Steven Kelly dressed in suit of blue and white. Larry Riter of The Dalles acted as best man for the bridegroom. John Kelly and George Traugher were the ushers.

A reception was held immediately following the ceremony in the Kent Legion hall. The hall was beautifully decorated with fall flowers, pink and white streamers and white bells. The bride's table was covered with a white linen cloth centered with the five tiered wedding cake baked and decorated by Mrs. Joe Hammond. The cake, topped with the traditional bride and bridegroom figurines, was flanked by white candles with dahlias surrounding the candle holders. After the bridal couple cut the first piece of wedding cake, it was cut and served by Mrs. Ralph Rust, Mrs. Ceford Garoutte and Mrs. Francis, both aunts of the bride, presided at the coffee urn and served the punch. Mrs. Del Goss had charge of the guest book.

The couple left for a short wedding trip and when they return will be at home in The Dalles.

Out of county relatives and friends present were Mrs. Chas. Francis and children, Mr. and Ceford Garoutte and family, Mr. and Mrs. Glen Fairchild Jr. and family, all from Grants Pass; Mr. and Mrs. Gerald Kelly and family of Sacramento, Mr. and Mrs. Jim Cates, Mr. and Mrs. Del Goss and family, Mr. and Mrs. Fred Traugher and Mr. and Mrs. Larry Riter, all of The Dalles; Mrs. Catherine Gaumitz of St. Paul, Minn.

Let's Talk REAL COST

JIM STEELE, your Brea Brand Solution Man serving this area, can help growers lower the "real cost" of their fertilizer. Drop in and talk this over with him today, or call **AGRI-CHEM, INC.** Wasco. Phone Gilbert 2-5422.

"REAL COST OF FERTILIZER" DEPENDS ON YIELD!

"What's this 'real cost of fertilizer' I'm hearing so much about?"

*100 x 1.25 = 125
100 x 1.10 = 110
100 x 1.00 = 100
100 x .90 = 90
100 x .80 = 80
100 x .70 = 70
100 x .60 = 60
100 x .50 = 50
100 x .40 = 40
100 x .30 = 30
100 x .20 = 20
100 x .10 = 10
100 x .00 = 0*

Many farmers now agree that "the real cost of fertilizer" must be figured in terms of gain or loss in yield and profit produced, rather than just dollars per ton actually paid for the fertilizer. Here are two ways to figure this "real cost".

- 1. ORIGINAL COST PLUS LOSS IN YIELD:** One case history reports a grain grower bought his ammonia at \$30 per ton less than the going price in his area. This bargain purchase forced him to handle all the application without technical service. He missed the most profitable application rate and his yield brought him \$7.50 per acre less profit than his neighbor. He figured that one ton of ammonia fertilized 16 acres at 100 lbs. N per acre, so he multiplied his \$7.50 per acre loss times 16 acres to make a loss equal to \$120 per ton of ammonia. This made his "real cost":
Original cost (\$30 less than dealer price) plus \$120 loss in yield = \$90/ton more than dealer price.
- 2. ORIGINAL COST MINUS GAIN IN YIELD:** The neighbor who paid market price for his ammonia with a service program, and got \$7.50 per acre more in yield, had a "real cost" of:
Original cost (dealer price) minus \$120 gain in yield = \$120/ton less than dealer price.

"How can I keep my 'real cost of fertilizer' as low as possible?"
