From where I sit... by Joe Marsh

**Curley
Tables His Motion**

The other night at the Rices', Curley was shaking his head over "young people," his daughter in particular.

"Can't tell her a thing," said Curley. "She wants a dining room set for a wedding present, so I said her mother might let her have ours. Beautiful set, too, only she claims it's 'out of style,' can you beat that?"

"Now, Curley," said Mrs. Rice, "you ought to know better. My mother gave us that set when we got married and I told her the same thing!"

From where I sit, no two people have the same taste in clothes, furniture — or beverages, for that matter. But we should all have respect for each other's preferences. For example, maybe you like tea or milk. Me, I prefer a glass of beer. That shouldn't prevent us from being good neighbors. Let's not be so "set" in our ways that we can't live with our differences.

The standard of the world in

Durability

Traveling the highways of the world are many Cadillac cars that have covered a million miles or more! Most motorists, of course, relinquish ownership before one tenth of that distance has accumulated. However, it is a constant source of satisfaction to know that a Cadillac could—if you demanded it—carry you so far as easily. Why not visit your dealer and let the 1959 Cadillac speak for itself—it's a wonderful story told in silence!
