**Trouble "Shooters"**

Stretch Taylor, captain of the high school basketball team, thought up a great way to keep the new schoolyard clean.

The teachers were having trouble keeping the kids from leaving their ice cream wrappers, empty milk cartons and paper napkins in the area after lunch and after school. . . in spite of the handy trash cans.

So Stretch got the idea of equipping each can with a small basketball backboard and a sign saying "Shoot a basket." From the way the

trash problem disappeared, our school should have a basketball powerhouse next season.

From where I sit, every problem needs just one good solution. For instance, it occurs to me that in getting along with our neighbors, tolerance is the solution. That means that your choice of tea should be honored just the same as my preference for a glass of beer. Makes for a "high scoring" combination in the friendship department.
