Betty Haven Married In Home Ceremony

An event of Mother's day weekend was the wedding of Miss Betty Lou Haven and William McClennon, both of Portland. The ceremony, which took place at the home of the bride's mother, Mrs. L. P. Haven, at 7:30 Friday evening, was performed by the Rev. Larry Eddings, pastor of the Wasco Methodist church, in the presence of about 30 relatives and close friends of the bride. Parents of the groom, who reside in Alaska, were unable to attend. The bride, whose father is deceased, was given in marriage by

Mr. Albert Kaseberg. She was beautifully gowned in a white ballerina length frock trimmed in lace, the fingertip veil held in place by band of tiny seed pearls. She carried the traditional bride's bouquet of white mums, and was attended by her sister, Mary Ann, who also wore a ballerina length frock, in a soft shade of rose. Mrs. Haven, mother of the bride, wore a beige afternoon dress with a lace top.

Best man was a close friend of the groom's, R. J. Gretza, of Portland. The groom and his best man wore light summer suits.

The Haven residence was beautifully decorated in a pink and white color scheme, carried out in the flowers and candles which graced the lace covered table that held the wedding cake. Mrs. Carroll Sayers of Moro played the wedding march and also accompanied Mrs. J. K. McKean, who sang "O Promise Me" and "The Lord's Prayer."

After the ceremony the newlyweds slipped away for a brief trip returning Sunday for a reception at the home of the bride's mother, which was attended by scores of friends and well-wishers of the

young couple, who will now be at home at 3022 S. W. Front St., Portland. The groom is employed by the Sipes Trucking company, and the bride is a secretary for the Bend-Portland Trucking company.

Out of town guests for the wedding and reception included Mrs. Viola Miller of Portland, and Mrs. Esther Forsberg of Ferndale, Wn., both aunts of the bride, and her maternal grandmother, Mrs. Amanda Patey, also of Ferndale, who will be 89 years old next month.

WHAT'S DOING

Cal Horn, your Telephone Manager

When new lines go up, chances are you'll see telephone men working from trucks or poles with equipment like this. We call it a "cable-lasher" — it wraps the cable to a strong steel supporting strand. We used to do the job by hand, hooking rings around the strand then drawing the cable through them. The idea of a cable-lasher sounds simple enough, yet a lot of technical work went into making it a reality. It was well worth it though, because our cable-lasher saves us lots of time—and it's economies like this that help us give you more for your telephone dollar.

Missiles are slowpokes . . . compared to telephone service, that is. Figure it this way. An 18,000-mile-an-hour missile could fly from here to New York in about 10 minutes. But if you place a call to New York you're usually connected with the number in less than 30 seconds after dialing is completed! So even if men do someday speed about in missiles, it'll be a long time before you can beat the fastest way to visit folks far away . . . by long distance telephone.

Find it fast in the yellow pages . . . Looking it up in the Classified section of the telephone directory is a national habit. It is a "buyers" is a national habit.

guide for home and business and always available for reference every day of the year. A friend of mine in The Dalles told me about an interesting experience he had with the yellow pages. He said, "When I am in the market to buy a certain item and want to know where to buy it, I just pinpoint it in the pinpoint Classified section. Yes, a dealer of name brand refrigerator sold one without sales effort because my wife and I knew what we wanted. His advertisement in the yellow pages was his silent salesman!" This goes to show that the Classified section is used to advantage by seller and buyer alike.
