WANTED BY THE FBI

JOSEPH CORBETT, JR.

Corbett, one of the FBI's "Ten Most Wanted Fugitives," is wanted for escape from the California Institution for Men, Chino, Calif., where he was serving a 5 years' to life sentence for murdering an Air Force sergeant. A Federal warrant was issued at Los Angeles, Calif., on March 21, 1960, charging him with unlawful interstate flight to avoid confinement for murder. A white American, born on October 25, 1928, at Seattle, Wash., Corbett is 6 feet 1 inch to 6 feet 2 inches tall and weighs 160 to 170 pounds. He has light brown hair, hazel eyes, a fair complexion, a medium build, and has worked as a clerk-typist, laborer, warehouseman, laboratory technician and alkyl-resin cooker for a paint manufacturer. His two upper front teeth slant inward and he wears glasses, reportedly being extremely nearsighted and capable of seeing only close objects without them. He has a mole under his chin and a C-shaped scar on his right thumb.

Corbett, once a premedical student is interested in scientific matters, avidly reads technical and travel books, and is intensely interested in firearms and target practice. He reportedly has a superior general intelligence and generally lives quietly and neatly but becomes erratic when drinking alcoholic beverages.

Convicted of second-degree murder, he is considered armed and dangerous. Anyone having information concerning him should immediately notify the nearest office of the FBI, the telephone number of which can be found on the first page of local telephone directories.

THE MARK OF A REALLY SMART PERSON

The mark of a really smart person is not necessarily a college diploma or a Phi Beta Kappa key. It might be simply a record of carefully-considered actions.

To "know it all" would be wonderful — if we humans could absorb that much knowledge in a lifetime. Next best is to seek and accept the advice of experts, particularly your Doctor.

Visit him frequently. Follow his directions carefully. Bring your prescriptions to us to be filled, and take the medicine he prescribes regularly.

Such cooperation is the best course possible for preservation of your health, and it marks you as a really smart person.
