From where I sit... by Joe Marsh

Whitey's a Man With Both Feet on the Ground

Whitey Fisher and his missus got back from their first European vacation the other day. But before they left, Mrs. Fisher tells us, Whitey had some pretty strong feeling about their transportation—a new jet plane.

"Should go by boat," Whitey complained as they boarded the jet. When they were seated Whitey murmured, "I'll get air-sick on this thing for sure."

And a few minutes later, he added, "Course I'm all right now, but wait until we take off." Just then the pilot announced, "Folks, we're now

cruising at an altitude of 26,000 feet!"

From where I sit, sometimes we all jump to conclusions without knowing the facts. For instance, some people are like that about my favorite beverage—beer. They insist that coffee or tea goes best at dinnertime, when actually it's a matter of choice. We ought to be tolerant—and know before we take off on our opinions.

QUALITY THE PRESCRIPTION PHARMACY SERVICE

IT NEVER WAS NECESSARY TO
"Enjoy" POOR HEALTH...

Many people seem to "enjoy" poor health. They would not care to be without a cupboardful of odd medicines for self treatment—some of which may not be in keeping with competent medical advice.

The better way is to enjoy good health—by careful planning. Consult your Doctor at regular intervals, more often if required. He will prescribe only the preparations that you need—preparations of the highest quality, such as those from the laboratories of Parke, Davis & Company—prescriptions which we will be pleased to compound for you. The necessity for medication will pass, and life with abundant health can become a pleasure indeed.
