Why VETERANS Are for NIXON And LODGE

1. The 22.6 million veterans and their families make up more than 46% of the total population. They want our next president courageously to lead the nation and the Free World.
2. Veterans with their vote, are selecting a leader, a Commander-in-Chief for the Cold War of attrition that we surely face for the remainder of our lives.
3. Veterans know howbest to avoid a Hot War through strength while at the same time not losing pieceme in the Cold War.
4. Veterans see in Nixon and Lodge men of stature and integrity with proven experience in foreign affairs and in facing the communist menace.
5. Under LODGE as Vice President a new post coordinating the nations effort on all fronts in the Cold War will be created.
6. NIXON is another veteran, not only of WWII but also of the Vice Presidency which under Ike has become a strong and active position in our government.
7. Serious minded veterans want no political double-talk, no mud slinging, no idle campaign promises, but a man who says what he means and means what he says.
8. Veterans of our wars know too well the price of freedom to entrust thehelm to those who speak or act rashly.
9. Veterans along with NIXON feel we owe the Communists "NO APOLOGY".

Reddy Kilowatt's Helpful Hints

HOW TO MAKE YOUR HEATING DOLLAR GO FARTHER!

- Make certain your house is well insulated, and that your doors and windows are weather-stripped. This cuts heat loss and gives you more value for your heating dollar.
- Try to keep drapes drawn and shades pulled at night and in rooms not in use because heat passes readily through window glass.
- You can save heat by closing off rooms at night where windows are raised. If the room has a separate thermostat, set it as near the outside temperature as possible.
- If your furnace has air filters, keep them clean. Dirty filters slow down air circulation and make your furnace work harder.

Reddy Kilowatt hopes these hints will help you save heating dollars. And remember, Reddy's always at your service for home comfort and convenience. Live better electrically.

DON'T BE MISLED!

BALLOT MEASURE NO. 15 — the billboard control measure, is a BAD bill which would cost Oregon families vital payroll dollars.

1. Oregon would become a "tourist corridor" to other states—our \$176,000,000 tourist industry would suffer.
2. Without adequate signs many hotels, restaurants, motels, service stations, resorts, stores of all kinds would be hurt or go out of business.
3. This measure would authorize the State to go into the billboard business and construct facilities with tax dollars.

Vote NO on No. 15 UNFAIR BILLBOARD MEASURE
